

# GS1140: Theory of Problem Solving

## Syllabus

John Steely

804-245-9423

[jsteely@itt-tech.edu](mailto:jsteely@itt-tech.edu)

### **Introduction**

#### *Instructor*

My name is John Steely, and I have been teaching for almost 30 years. I have been primarily a mathematics teacher, but along the way I have taught many other subjects, including leadership, economics, and problem solving. I have worked in the financial sector, retail sector, and information technology sector as well. This is the experience that I will bring to bear on this course, and I hope that you can benefit from my expertise.

#### *Subject*

Problem solving is an incredibly valuable skill for an employee in today's world. Take a look at any job description beyond the cashier level, and you will find problem solving in one form or another. The ability to solve problems can determine your success in any field, any career.

Problem solving has many different phases, which we will study in this course. In its simplest terms, problem solving involves the ability to understand the current circumstances, create a plan of action, act on that plan, and evaluate the results. We will be working with a particular heuristic, or system, for solving problems, which is one of many. I encourage you to work with this system until you are comfortable with it; then you can explore others from a position of strength.

### **Daily schedule**

Each week our class will be divided into several pieces. The first piece, which will typically last about 15 minutes, involves a video presentation. The second piece, which will last about 1 hour in most cases, will involve a lecture about a particular part of the problem solving heuristic. The third piece will be an activity designed to improve your problem solving skills, and will last about 45 minutes to an hour. Each even week will have a quiz on the material of the previous weeks, which should take about 15 minutes. Finally, there will be a section about some aspect of arithmetic, last about 45 minutes.

### **Grading**

# Gs1140 Problem Solving Theory

**BM King**

## **Gs1140 Problem Solving Theory:**

## Adopting the Melody of Expression: An Emotional Symphony within **Gs1140 Problem Solving Theory**

In some sort of consumed by screens and the ceaseless chatter of instantaneous communication, the melodic elegance and psychological symphony produced by the written word often fade in to the background, eclipsed by the relentless noise and disturbances that permeate our lives. But, located within the pages of **Gs1140 Problem Solving Theory** a charming literary value overflowing with organic thoughts, lies an immersive symphony waiting to be embraced. Crafted by a wonderful composer of language, this charming masterpiece conducts viewers on a mental journey, well unraveling the concealed songs and profound affect resonating within each carefully crafted phrase. Within the depths with this touching assessment, we will investigate the book is central harmonies, analyze its enthralling writing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
