

## Creating the future we want

I want a lot to change. It doesn't matter when, but it has to change. And it has to be good for everyone. It would be a good idea to change the economy. All the prices are too high. The gasoline price is almost four dollars per gallon. This is not good.

The Immigrant problem should change. I don't think immigrants should be sent back to their countries if they didn't do anything wrong. Instead, help them fix their problems. All students who want to go to college should be helped with scholarships. And instead of people being fired from their jobs, more people should be hired. A lot of people are in need of jobs. I want the government to help the homeless get jobs, since they are already providing help with clothes, shelter, and food.

I want to make changes in the future so I'll have a better future. Everything can change to be better, but we have to speak up for all this to happen. Everybody has to help out. There need to be changes that everybody can agree on. Schools should get more technology. Students wouldn't have to carry heavy books and notebooks. There should be no uniforms in school. Some parents don't have money to buy them for their children. The students can use their own clothes. Why make the parents waste more money? This would really help the parents for the future.

If someone would've thought of all this before, maybe life wouldn't be as hard right now. Everything would've changed for the better. There wouldn't be as many homeless people, or addicts. A lot of people become addicts because they don't have good lives. And nobody is helping to make their lives better. Things will be better if everybody helps in the future. In my future, I want everything to be better.
