

INSTALLATION INSTRUCTIONS FOR ELECTRIC CHOKE CAP KIT PART NUMBERS 45-226

INTRODUCTION:

Holley Performance Products has written this manual for the installation of the electric choke cap kit. Should you need information or parts assistance, please do not return the unit to the store without first contacting technical service at 1-270-761-5741, Monday through Friday, 7:00 a.m. to 5:00 p.m. Central Time. By using this number, you may obtain any information and/or parts assistance that you may require. Please have the part number on hand of the product you purchased when you call technical service.

NOTE: PLEASE READ AND FOLLOW THE INSTRUCTIONS COMPLETELY BEFORE AND DURING INSTALLATION.

The electric choke kit is standard on many 1973 and later vehicles for emission advantages. With the right calibration and supplied material, this system can also produce a well-performing and economic vehicle.

Following the steps below, your kit will perform to its potential. This installation should be done with the carburetor off the vehicle. Carefully detach any vacuum lines and linkage to the carburetor after marking them, so that they may be reassembled in the same manner. Be careful not to damage the gasket under the carburetor when lifting it off.

NOTE: This installation should be done OFF the vehicle.

1. Remove the three (3) slotted screws holding the retaining ring (Figure 1).
2. Remove the retaining ring and cap.
3. Remove the cap gasket from the housing.
4. Clean the choke housing, making sure all internal parts are free-moving.
5. Install the new choke cap gasket onto the housing.
6. Install the new cap with the retaining ring. Install the ring, so that it bows outward from the cap (Figure 2).

IMPORTANT: When installing the choke cap, be sure the bi-metal pick-up lever (in the housing) fits into the loop on the bi-metal spring. Check this by turning the choke cap in both directions. The choke plate should open when rotated clockwise and should close when rotated counter-clockwise.

7. Tighten the retaining ring screws just enough to hold the cap in place, but will allow it to be rotated.
