Civic Power K.Sabeel Rahman,Hollie Russon Gilman,2019-08-29 What will it take to restore American democracy and rescue it from this moment of crisis Civic Power argues that the current threat to US democracy is rooted not just in the outcome of the 2016 election but in deeper systemic forms of inequality that concentrate economic and political power in the hands of the few at the expense of the many Drawing on historical and social science research and case studies of contemporary democratic innovations across the country Civic Power calls for a broader approach to democracy reform focused on meaningfully redistributing power to citizens It advocates for both reviving grassroots civil society and novel approaches to governance policymaking civic technology and institutional design aimed at dismantling structural disparities to build a more inclusive empowered bottom up democracy where communities and people have greater voice power and agency

The American Nonvoter Lyn Ragsdale, Jerrold G. Rusk, 2017-04-24 A diverse body of research exists to explain why eligible voters don't go to the polls on election day Theories span from the psychological nonvoters have limited emotional engagement with politics and therefore lack motivation to the social politics is inherently social and nonvoters have limited networks and the personal nonvoters tend to be young less educated poor and highly mobile Other scholars suggest that people don't vote because campaigns are uninspiring This book poses a new theory uncertainty about the national context at the time of the election During times of national crisis when uncertainty is high citizens are motivated to sort through information about each candidate to figure out which would best mitigate their uncertainty When external uncertainty is low however citizens spend less time learning about candidates and are equally unmotivated to vote The American Nonvoter examines how uncertainty regarding changing economic conditions dramatic national events and U S international interventions influences people's decisions whether to vote or not Using rigorous statistical tools and rich historical stories Lyn Ragsdale and Jerrold G Rusk test this theory on aggregate nonvoting patterns in the United States across presidential and midterm elections from 1920 to 2012 The authors also challenge the stereotype of nonvoters as poor uneducated and apathetic Instead the book shows that nonvoters are by and large as politically knowledgeable as voters but see no difference between candidates or view them negatively *Living the Dream* Maria Chavez, Jessica L Lavariega Monforti, Melissa R Michelson, 2015-11-17 In 2012 President Obama deferred the deportation of qualified undocumented youth with his policy of Deferred Action for Childhood Arrivals forever changing the lives of the approximately five million DREAMers currently in the United States Formerly illegal a generation of Latino youth have begun to build new lives based on their newfound legitimacy In this book the first to examine the lives of DREAMers in the wake of Obama's deferred action policy the authors relay the real life stories of more than 100 DREAMers from four states They assess the life circumstances in which undocumented Latino youth find themselves the racializing effects generated by current immigration public discourse and the permanent impact of this policy environment on DREAMers in America *War and the Art of Governance* Nadia Schadlow, 2017-03-01 Success in war ultimately depends on the consolidation of political order Nadia Schadlow argues that the steps needed to consolidate a new political order are not separate from war They are instead an essential component

of war and victory The challenge of governance operations did not start with the wars in Iraq and Afghanistan The US Army's involvement in the political and economic reconstruction of states has been central to all its armed conflicts from large scale conventional wars to so called irregular or counterinsurgency wars Yet US policymakers and military leaders have failed to institutionalize lessons on how to consolidate combat gains into desired political outcomes War and the Art of Governance examines fifteen historical cases of US Army military interventions from the Mexican War through the wars in Iraq and Afghanistan Improving future outcomes will require US policymakers and military leaders to accept that plans timelines and resources must be shaped to reflect this reality before they intervene in a conflict not after things go wrong Schadlow provides clear lessons for students and scholars of security studies and military history as well as for policymakers and the military personnel who will be involved in the next foreign intervention **Preaching 34579** Fred B. Craddock, 2010-09-01 A standard textbook on the art and craft of preaching Craddock weaves history theology and hermeneutics into an exhaustive text on sermon preparation and preaching Painstakingly prepared for seminary students and clergy this book answers the fundamental question How does one prepare and deliver a sermon Craddock's approach is practical but also allows for concentrated study of any particular dimension of the process Filled with practical wisdom A liberating book Richard Lischer Duke University Management , *The American School Board Journal* William George Bruce, William Conrad Bruce, 1923
