Weaver, 2025-04-01 Many developed countries restructured relations between state and economy from the late 1970s into the 1990s Among them New Zealand went far fast and left a clear trail making it possible to study economic restructuring as it occurred with all the debates uncertainty surprises mistakes and accomplishments this entailed Adam Smith's Islands reveals the inside life of a government determined to revolutionize its nation's politics and economy While the 1980s economic restructuring of members of the Organisation for Economic Co-operation and Development and former Warsaw Pact countries can seem like a foregone conclusion from the vantage point of the twenty-first century John Weaver examines how local and global institutions had to come together to implement social adjustments in New Zealand Mounting evidence that the state had not functioned as an effective manager split the business community and primary producers between defenders of subsidization and free market insurgents Reforms undertaken by the governing Labour Party included abandoning currency controls privatizing state-run businesses ending a multitude of open and disguised subsidies tightening fiscal responsibility and reforming taxation Adam Smith's Islands focuses on the verifiable direct primary sources from dozens of state collections and deposits of personal papers The archival cornucopia informing this history supports a narrative that has little in common with intellectual histories of neoliberalism To understand how the relationship between the economy and the state changed we need to grasp how and why core institutions practices and cultural beliefs shed some of their once potent legitimacy Through the lens of New Zealand Adam Smith's Islands examines larger questions about policy dilemmas the global flow of capital and the sustainability of social adjustments in economic restructuring In so doing it casts new light on the formation and history of what is casually labelled today as the neoliberal state Longing for Belonging among the Marginalized in Urban Australia Ritsuko Kurita, 2024-09-23 Longing for Belonging among the Marginalized in Urban Australia examines how Indigenous people African refugees and impoverished Whites in urban Australia who are deemed undesirable citizens under neoliberal governance experience citizenship in their everyday lives Drawing on ethnography conducted in Adelaide and Sydney from 2014 to 2020 along with digital ethnography it elucidates a new sense of belonging being developed across these groups that is mediated by their shared experiences of displacement and predicaments While individuals of these groups are marginalized due to the reinforcement of race and homogenization of welfare beneficiaries as morally deficient and are ashamed to be aware of their norm violations a cross-group sense of belonging has emerged that transverses racial and ethnic differences It is based on mutual care compassion and empathy or a community mediated by the ethics of care fostering a sense of belonging among members who according to other paradigms of relatedness might be seen as separate or unequal Ritsuko Kurita maintains that this new sense of belonging rooted in caring for others can contribute to the development of horizontal citizenship by temporarily bridging differences in race ethnicity class and gender which can challenge neoliberal citizenship that values economic rationality self-autonomy and individualism Poor-bashing Jean

Swanson, 2001 The special language of poor bashing disguises the real causes of poverty hurts and excludes people who are poor cheapens the labour of people who have jobs and takes the pressure off the rich Swanson a twenty five year veteran of anti poverty work exposes the ideology of poor bashing in a clear forceful style She examines how media pornography operates when reporters cover poverty stories She also reveals how government and corporate clients use poor bashing focus groups To make the book even more useful Swanson includes key chapters on the history of poor bashing *Locating Law, 3rd Edition* Elizabeth Comack, 2020-05-27T00:00:00Z Praise for the second edition This book is the best available for teaching the role of law in society and making sense of how it operates within the inter connections of race class and gender dynamics often perpetuating oppression Locating Law is essential for undergraduate students in justice sociology and criminology Margot Hurlbert University of Regina Students regularly tell me that Locating Law is their favourite book out of the selections for the Law and Society course The case studies are sufficiently different from one another that the students deepen their general knowledge and they appreciate the fact that the chapters are written in a style they can understand Jennifer Jarman Lakehead University A primary concern within the study of law has been to understand the law society relation Underlying this concern is the belief that law has a distinctly social basis it both shapes and is shaped by the society in which it operates This book explores the law society relation by locating law within the nexus of race class gender sexuality relations in society In addition to updating the material in the theoretical and substantive chapters this third edition of Locating Law includes three new contributions sentencing law and Aboriginal peoples corporations and the law and obscenity and indecency legislation The analyses offered in the book are sure to generate discussion and debate and in the process enhance our understanding of law s location
