Stone, Jaime

Cantrell,2015-11-20 The first book to focus on the experience of LGBT archival research Out of the Closet Into the Archives takes readers inside the experience of how it feels to do queer archival research and queer research in the archive The archive much like the closet exposes various levels of public and privateness recognition awareness refusal impulse disclosure framing silence cultural intelligibility each mediated and determined through subjective insider outsider ways of knowing The contributors draw on their experiences conducting research in disciplines such as sociology African American studies English communications performance studies anthropology and women s and gender studies These essays challenge scholars to engage with their affective experience of being in the archive illuminating how the space of the archive requires a different kind of deeply personal embodied research Libraries, Literatures, and Archives Sas Mays,2013-11-26 Not only does the library have a long and complex history and politics but it has an ambivalent presence in Western culture both a site of positive knowledge and a site of error confusion and loss Nevertheless in literary studies and in the humanities including book history the figure of the library remains in many senses under researched This collection brings together established and up and coming researchers from a number of practices literary and cultural studies gender studies book history philosophy visual culture and contemporary art with an effective historical sweep ranging from the time of Sumer to the present day In the context of the rise of archive studies this book attends specifically and meta critically to the figure of the library as a particular archival form considering the traits that constitute or fail to constitute the library as institution or idea and questions its relations to other accumulative modes such as the archive in its traditional sense the museum or the filmic or digital archive Across their diversity and in addition to their international standard of research and writing each chapter is unified by commitment to analyzing the complex cultural politics of the library form App Storm: Best Kindle Fire Apps, a Torrent of Games, Tools, and Learning Applications, Free and Paid, for Young and Old Steve Weber,2013-11-02 Psst Hey can we talk It s about your Kindle Fire You spent about 200 of your hard earned money to buy it right Fine the Kindle Fire is a heckuva bargain But think about this What if I could show you how to get a LOT more out of your Kindle Fire Like 100 dollars worth of free downloads Every day 365 times a year That s right more than 100 dollars worth of free downloads Every day of the year another hundred clams worth of downloads Games apps videos and Kindle eBooks Plus more than 20 000 other free apps that aren t available in Amazon s App Store for Kindle I ll show you how to get those too Would you spend a few minutes of reading to get that You ll get it plus much more by downloading and reading this book right now A free paid app every day Plus dozens of free Kindle books I hand pick a fresh batch every morning Discover what s missing from your Kindle library and how to get it FREE Plus at least 100 worth of free stuff for your Kindle every day 365 times a year What you need more convincing OK here s the table of Contents from App Storm my brand new book of recommendations for the must have apps for your Kindle Fire INTRODUCTION A WORD ABOUT FREE APPS Fast Start Guide to the Kindle Fire Firing up your Kindle for the first time Batter charging life Shopping for apps Installing an App How Many Apps Can You Have Removing apps To

Writing In Holiness David Bergsland, 2015-01-02 In the new millennium an incredible opportunity has appeared to the Body of Christ the new self publishing paradigm It is my belief that the Lord intends to use this gift as a tool to disciple the church and to plant seeds for the final harvest Only time will tell about this Regardless the role of Christian author in the midst of all that is going on in the world needs careful examination If the Lord has called you to write what does that mean You have been called by the Lord of Lords to do this work He has given you to do That s real serious This is God talking to you What does He expect from you How are you to respond What skills will you need How will you get your books to sell The questions keep appearing before our eyes one after the other as we struggle to make sense of it all So who am I to try and help One compelled to write about these issues and to encourage Christian authors to walk the strait and narrow path I ve been teaching scripture since 1974 which is almost as long as I have been working for publishers and designing books I was a teaching pastor for over a decade But none of that matters What matters is how you react to the message The James Stuart Archive of Recorded Oral Evidence Relating to the History of the Zulu and Neighbouring Peoples James Stuart, 1976 This volume is the third of The James Stuart Archive In it the editors present a further twenty eight documents compiled from material in the James Stuart Collection of the Killie Campbell Africana Library in Durban James Stuart was an official in the Natal colonial civil service in the 1890s and early years of the present century In meticulously recorded interviews with hundreds of informants the great majority of them Africans he assembled a vast and unique collection of notes on the traditions and customs of the Zulu and neighbouring peoples The documents published in the successive volumes of The James Stuart Archive represent edited annotated and translated renderings of Stuart s notes and transcriptions The testimony which he assembled piecemeal has been arranged by the editors under the names of the informants from whom it was obtained and is being published in alphabetical name order The present volume carries the sequence from Mbokodo to Mpatshana and brings to ninety nine the number of informants whose statements have so far been published in the series

British Romanticism and the Archive David Kerler, 2022-06-06 Taking its cue from Jacques Derrida s concept of le mal

d archive this study explores the interrelations between the experience of loss melancholia archives and their self destructive tendencies surfacing in different forms of spectrality in selected poetry of British Romanticism It argues that the British Romantics were highly influenced by the period s archival fever manifesting itself in various historical material technological and cultural aspects and implicitly reflected and engaged with these discourses and materialities medialities in their works This is scrutinized by focusing on two basal closely related facets the subject s feverish desire to archive and the archive s self destructive tendencies which may also surface in an ambivalent melancholic relishing in the archived object s presence within its absence Through this new theoretical perspective details and coherence previously gone unnoticed shall be laid bare ultimately contributing to a new and more profound understanding of British Romanticism s It will be shown that the various discursive and material manifestations of archives and archival practices not only echo the period s technological cultural and historical developments along with its incisive experiencing of loss but also fundamentally determine Romantic subjectivity and aesthetics
