Discriminating Risk Guy Stuart,2018-07-05 The U S home mortgage industry first formalized risk criteria in the 1920s and 1930s to determine which applicants should receive funds Over the past eighty years these formulae have become more sophisticated Guy Stuart demonstrates that the very concepts on which lenders base their decisions reflect a set of social and political values about who deserves what Stuart examines the fine line between licit choice and illicit discrimination arguing that lenders while eradicating blatantly discriminatory practices have ignored the racial and economic class biases that remain encoded in their decision processes He explains why African Americans and Latinos continue to be at a disadvantage in gaining access to loans discrimination he finds results from the interaction between the way lenders make decisions and the way they shape the social structure of the mortgage and housing markets Mortgage lenders Stuart contends are embedded in and shape a social context that can best be understood in terms of rules networks and the production of space Stuart s history of lenders risk criteria reveals that they were synthesized from rules of thumb cultural norms and untested theories In addition his interviews with real estate and lending professionals in the Chicago housing market show us how the criteria are implemented today Drawing on census and Home Mortgage Disclosure Act data for quantitative support Stuart concludes with concrete policy proposals that take into account the social structure in which lenders make decisions

Underwater Chris Lauer,2014-03-01 Just about every month housing values in the U S fall That in turn increases the number of people who owe more on their houses than they are worth either trapping them in homes they may no longer want

or putting them in danger of financial catastrophe if they lose a job or are otherwise unable to meet the mortgage. **Underwater Options When Your Mortgage Is Upside Down** offers valuable advice to homeowners on ways they can unload a house they no longer want, save a home from foreclosure, or undergo foreclosure and start anew. The book offers smart advice from lawyers, bankers, real estate agents, personal finance experts, and homeowners who have seen the foreclosure process firsthand, as well as those who have been able to save their homes through loan modifications and other creative methods. Those faced with tough choices will find invaluable guidance to help them make well-informed decisions while managing the emotional fallout each brings. Many of the eleven million people in the U.S. now facing the underwater dilemma wonder: Is staying put the only option? What if I can't pay the monthly mortgage bill? Can I save my home? **Underwater Options When Your Mortgage Is Upside Down** outlines the options when foreclosure is a good idea, how to best protect the equity you've built up, the financial repercussions of going into foreclosure, strategies for renegotiating a loan, taking advantage of government programs designed to keep you happily housed, and more. Veteran financial journalist Chris Lauer provides the facts, ideas, and advice that can help any underwater homeowner, especially those facing foreclosure, make smart decisions for a better future.

The Dream Revisited Ingrid Ellen, Justin Steil, 2019-01-15 A half century after the Fair Housing Act, despite ongoing transformations of the geography of privilege and poverty, residential segregation by race and income continues to shape urban and suburban neighborhoods in the United States. Why do people live where they do? What explains segregation's persistence? And why is addressing segregation so complicated? **The Dream Revisited** brings together a range of expert viewpoints on the causes and consequences of the nation's separate and unequal living patterns. Leading scholars and practitioners, including civil rights advocates, affordable housing developers, elected officials, and fair housing lawyers, discuss the nature of and policy responses to residential segregation. Essays scrutinize the factors that sustain segregation, including persistent barriers to mobility and complex neighborhood preferences, and its consequences from health to home finance and from policing to politics. They debate how actively and in what ways the government should intervene in housing markets to foster integration. The book features timely analyses of issues such as school integration, mixed-income housing, and responses to gentrification from a diversity of viewpoints. A probing examination of a deeply rooted problem, **The Dream Revisited** offers pressing insights into the changing face of urban inequality.
