Profit and Prejudice Paul Donovan, 2020-11-05 Avoiding prejudice will be critical to economic success in the fourth industrial revolution. It is not the new and innovative technology that will matter in the next decade but what we do with it. Using technology properly with diverse decision making is the difference between success and failure in a changing world. This will require putting the right person in the right job at the right time. Prejudice stops that happening. Profit and Prejudice takes us through the relationship between economic success and prejudice in labour markets. It starts with the major changes that occur in periods of economic upheaval. These changes tend to be unpopular and complex and complexity encourages people to turn to the simplistic arguments of scapegoat economics and prejudice. Some of the changes of the fourth industrial revolution will help fight prejudice but some will make it far worse. The more prejudice there is the harder it will be for companies and countries to profit from the changes ahead. Profit is not the main argument against prejudice but can certainly help fight it. This book tells a story of the damage that prejudice can do. Using economics without jargon students, investors and the public will be able to follow the narrative and see how prejudice can be opposed. Prejudice is bad for business and the economy. Profit and Prejudice explains why.

Do Good Well Nina Vasan, Jennifer Przybylo, 2013-03-14 Written with a fresh voice and a dash of humor Do Good Well is an exciting and readily adaptable guide to social innovation that not only captures the entrepreneurial and creative spirit of our time but also harnesses the insights, wisdom and down to earth experience of today's most accomplished young leaders. Do Good Well offers a winning combination of theory, anecdote and application giving you the framework you need to make an impact next door or across the world. The authors present a 12 step process that empowers readers to act on their passions and concerns. This process is organized into three parts: Do What Works, Work Together and Make It Last. They offer specific guidance for following the process through practical and prescriptive actions such as building organizations, joining boards, applying for funding, creating partnerships with organizations that have similar goals, organizing conferences and publicizing events. The book incorporates accounts of young people in action and always reinforces the message that social innovation can be a lifestyle made up of efforts small and large. It is not an all or nothing proposition and anyone can affect social change.
