

## Sassy

Sassy, a partnership between fashion designers, produces clothes for teenagers. Capacity utilization is very high. The partners are considering some strategic changes. After conducting research, they presented three options and outlined the costs and expected revenue. They also predicted that the economy would either improve or stay the same. The probability of the economy staying the same is 0.3.

The options, costs and expected revenue are given below:

**Table 1: Information relating to the three strategic options for change.**

Options	Costs	Expected revenue
<b>Option 1:</b> Increase production capacity	\$200 000	\$300 000 (economy improves) \$250 000 (economy stays the same)
<b>Option 2:</b> Dissolve the partnership and sell Sassy's brand name to a competitor	Not applicable	\$150 000
<b>Option 3:</b> Become a private limited company and:  (a) Stay with the current product range and production level  <b>OR</b>  (b) Develop a new product range of children's clothes.	\$150 000 (legal costs)  No additional costs  \$170 000 additional cost	Not applicable  \$220 000 (economy improves) \$170 000 (economy stays the same)  \$550 000 (economy improves) \$450 000 (economy stays the same)

(a) Describe one disadvantage for an organization of operating at high-capacity utilization.

[2]

(b) Construct a fully labelled decision tree and identify the best option for Sassy (show all your working). [6]

(c) Explain one limitation for Sassy of using a decision tree as a planning tool. [2]

Rethinking the Case Study in International Business and Management Research Rebecca Marschan-Piekkari,Catherine Welch,2011-01-01 This important and original book places the case study in international business research in its historical context critically evaluates current case study practices in the field and proposes a more pluralistic future for case research within international business and international management research While the case study is the most popular qualitative research strategy in the field only a narrow selection of possible approaches is currently used IB and IM researchers typically rely on a case study approach that could be characterized as qualitative positivism The editors and contributors look beyond this disciplinary convention and encourage greater pluralism in IB and IM case research Their key argument is that increased awareness of prevailing disciplinary conventions and their limitations increases the potential for methodological innovation and versatility in case research The contributions provide critical novel and innovative perspectives on the case study in IB and IM research The book offers inspiration to case authors and an authoritative methodological reference for those publishing and reviewing case research It will also be highly regarded by postgraduate and doctoral students in IB and IM as well as both qualitative and quantitative researchers in the field

**Smart Leadership - Wise Leadership** Christopher Steed,2017-07-14 There is a strong link between organisational culture and profit after all a happy workforce is a productive workforce Yet a culture of inertia rather than innovation prevails in many organisations Wise leaders however know how to work with the grain of human value and worth harnessing it so as to add shared value both for the organisation and for the good of society So how can astute leaders set the right conditions for creativity and cultivate non economic goods such as time and relationships that make for a happy effective workforce The author proposes the notion of organisational culture as environments of value wherein inner value translated into external value is embedded within the triple bottom line and indeed an awareness of how an organisation is like a force field it exercises power and leaves a footprint This construct informs the emerging concept of Shared Value as requiring five literacies about Shareholder value and return for risk Value for the social environment linked to respect for the natural environment Inner value of those in the enterprise which when unlocked releases energies and

adds value Nurture of non quantifiable qualities that promote human flourishing Understandings of how power relations distort the way organisations operate He clearly signposts the link between promoting an environment of value within which these literacies flourish and the added value for the organisation arising from such a culture *Philosophy of Science and Meta-Knowledge in International Business and Management* Timothy M. Devinney, Torben Pedersen, Laszlo Tihanyi, 2013-06-25 This volume explores major issues and concepts in the field of international business and management and asks the question What is it that we know It examines key topics such as multinational enterprise and strategic management theory post merger integration internalizing firms and the strategy performance relationship *The Routledge Companion to the Geography of International Business* Gary Cook, Jennifer Johns, Frank McDonald, Jonathan Beaverstock, Naresh Pandit, 2018-05-08 The fields of Economic Geography and International Business share an interest in the same phenomena whilst each provides both a differing perspective and different research methods in attempting to understand those phenomena The Routledge Companion to the Geography of International Business explores the nature and scope of inter disciplinary work between Economic Geography and International Business in explaining the central issues in the international economy Contributions written by leading specialists in each field including some chapters written by inter disciplinary teams focus on the nature of multinational firms and their strategies where they choose to locate their activities how they create and manage international networks and the key relationships between multinationals and the places where they place their operations Topics covered include the internationalisation of service industries the influence of location on the competitiveness of firms and the economic dynamism of regions and where economic activity takes place and how knowledge goods and services flow between locations The book examines the areas for fruitful inter disciplinary work between International Business and Economic Geography and sets out a road map for future joint research and is an essential resource for students and practitioners of International Business and Economic Development **Socially Responsible International Business** Leonidas C. Leonidou, Constantine S. Katsikeas, Saeed Samiee, Constantinos N. It also explores the disrupted operations and responses of businesses as their worldwide interconnectivity has been seriously threatened. The book discourses multidirectional aspects of the effects of Covid 19 on international business ranging from the juxtaposing forces disrupting globalization and installing a change of era through decoupling of technological production and knowledge flows to its stimulating aspects to the strategic response on business industry and state level. The book contains thirty chapters that offer a multidimensional interpretation of impacts of Covid 19 on international business theory and practice. Employing the latest state of knowledge on the topic, the book is aimed at international business audience: scholars, students, and managers who need to understand better the nature, scope, and scale of the impacts of the pandemic on international business.

**The Routledge Companion to International Management Education** Denise Tsang, Hamid H. Kazeroony, Guy Ellis, 2013-06-19

Crises and scandals in the world of international management have brought a new spotlight onto how the subject is taught, studied, and understood. There has been a plethora of literature on international management, but a lack of focus on how international management education (IME) can be shaped to respond to existing and future global business challenges. The Routledge Companion to International Management Education gathers together contributors from academia, industry, and university administration involved in IME to introduce the domain of IME, describe the emerging state in new geographical areas, discuss the major issues and debates revolving around IME, explore the linkage of technology and international management, and shed light on the future of IME. The diverse background of the contributors provides a global perspective that challenges the dominant Anglo-American view with up-to-date specific insights originating from their indigenous viewpoints, which has often been neglected and inadequately covered. The volume answers important questions such as: Do we need a vision in IME? What is the current state of IME? How has IME grown in emerging market segments? What roles does technology play in its recent development? The volume provides thought-provoking reading for educators, administrators, policy makers, human resources professionals, and researchers. It will also give future international management students a glimpse of IME from a global inside-out perspective.

Managing Water Under Uncertainty and Risk: United Nations World Water Development Report #4 (3 Vols.) UNESCO, 2012-01-01

Released every three years since March 2003, the United Nations World Water Development Report (WWDR) is a flagship UN Water report published by UNESCO. It has become the voice of the United Nations system in terms of the state, use, and management of the world's freshwater resources. The report is primarily targeted at national decision makers and water resource managers but is also aimed at educating and informing a broader audience from governments to the private sector and civil society. It underlines the important roles water plays in all social, economic, and environmental decisions, highlighting policy implications across various sectors from local and municipal to regional and international levels. Similarly to the first two editions, this report includes a comprehensive and up-to-date assessment of several key challenge areas such as water for food, energy, and human health.

and governance challenges such as institutional reform knowledge and capacity building and financing each produced by individual UN agencies
