*Bihar and Mithila* J. Albert Rorabacher, 2016-09-13 The world has become obsessed with the Western notions of progress development and globalization the latter a form of human and economic homogenization These processes through the aegis of the United Nations are comparatively monitored Those nations deemed to be lagging behind are then provided with foreign aid and developmental assistance For nearly seventy years India has sought its place in this global endeavour yet even today abject poverty and backwardness can be observed in districts in almost every state with the highest concentration of such districts found in the state of Bihar and a cultural enclave known as Mithila Development in India has been elusive because it is difficult to define and because the Western concepts of development and progress have no absolute equivalents within many non Western settings As a consequence development programmes often fail because they are unable to ask the right questions but equally important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India's problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co-opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates

Banking Regulation in China W. He, He Wei Ping, 2014-03-06 Banking Regulation in China provides an in depth analysis of the country's contemporary banking regulatory system focusing on regulation in practice By drawing on public and private interest theories relating to bank regulation He argues that controlled development of the banking sector transformed China's banks into more market oriented institutions and increased public sector growth This work proves that bank regulation is the primary means through which the Chinese government achieves its political and economic objectives rather than using it as a vehicle for maintaining efficient financial markets      **Fundamentals of Investment Management** Geoffrey A.
