A school consists of 740 students divided into 5 grade levels. The numbers of students in each grade are shown in the table below.

Grade	8	9	10	11	12
Number of students	120	125	119	195	181

The Principal of the school wishes to select a sample of 25 students. She wishes to ensure that, as closely as possible, the proportion of the students from each grade in the sample is the same as the proportions in the school.

- (a) Calculate the number of grade 12 students who should be in the sample. [3]

The Principal selects the students for the sample by asking those who took part in a previous survey if they would like to take part in another. She takes the first of those who reply positively, up to the maximum needed for the sample.

- (b) State which two of the sampling methods listed below best describe the method used. [2]

notions of progress development and globalization the latter a form of human and economic homogenization These processes through the aegis of the United Nations are comparatively monitored Those nations deemed to be lagging behind are then provided with foreign aid and developmental assistance For nearly seventy years India has sought its place in this global endeavour yet even today abject poverty and backwardness can be observed in districts in almost every state with the highest concentration of such districts found in the state of Bihar and a cultural enclave known as Mithila Development in India has been elusive because it is difficult to define and because the Western concepts of development and progress have no absolute equivalents within many non Western settings As a consequence development programmes often fail because they are unable to ask the right questions but equally important is the political economy derived from foreign aid For politicians there is no long term benefit to be derived from successful development In general foreign aid only serves to corrupt governments and politicians and in the end does very little for those who need help The struggling states of Bihar and Mithila serve as extreme examples of India s problems Development here has been thwarted by a hereditary landed aristocracy supported by religion casteism custom social stratification tradition and patterns of behaviour that can be traced back millennia In turn all these have been masterfully manipulated by co opted politicians who have turned politics into a veritable art form as this volume comprehensively demonstrates

Soldiering On Adam Powell, 2019-09-09 A month after the Armistice Prime Minister David Lloyd George promised to make Britain a land fit for heroes At the time it was widely believed Returning soldiers expected decent treatment and recognition for what they had done yet the fine words of 1918 were not matched by actions The following years saw little change as a lack of political will watered down any reform Beggars in trench coats became a common sight in British cities *Soldiering On* examines how the Lost Generation adjusted to civilian life how they coped with physical and mental disabilities and struggled to find jobs or even communicate with their family This is the story of men who survived the trenches only to be ignored when they came home Using first hand accounts Adam Powell traces the lives of veterans from the first day of peace to the start of the Second World War looking at the many injustices ex servicemen bore while celebrating the heroism they showed in the face of a world too quick to forget

Global Perspectives on Migration and Development Irena Omelaniuk, 2012-05-23 This volume is

the first in a new Springer series to examine one of humanity's most pressing concerns global migration and its implications for development. As population mobility grows in an ever more crowded world, the Global Forum on Migration and Development (GFMD) has emerged as the most important global mechanism to deal with the urgent challenges it presents. This book explores fresh strategies proposed by the GFMD in its fourth year of operation in Mexico and beyond. Interrogating the relationship between migration and development, the papers advance the Global Forum's aims of reducing poverty and empowering low-income families everywhere. In 2010, there were 214 million international migrants worldwide, nearly two and a half times the number in 1965. By 2050, international migration is likely to expand sharply in scale, reach, and complexity due to growing demographic disparities, environmental change, shifting global political and economic dynamics, technological innovations, and social networks. Migration can bring substantial gains to families in less developed countries, and mobile labor is an axiomatic feature of the global economy. Yet outward migration of skilled workers can seriously retard development at home and exert pressure on wages in host nations. Balancing these and other conflicting concerns requires the substantive and expert discourse offered in this book. Contributors discuss and propose concrete solutions to vital issues such as the debilitating costs of cross-border labor recruitment and the provision of social and income protection for foreign contract workers. With suggestions on how to facilitate connections between transnational families and gender- and family-sensitive immigration regimes, this book aims to foster collaborative intergovernmental links as well as partnerships between governments, civil society, and international organizations. It shows how the GFMD can positively influence policy and institutional behavior while addressing wider systemic factors in protecting mobile workers.

The State and the Advocate Teresita Rosario, 2014-07-11 This book seeks to demonstrate the role of public policy in support of equitable and inclusive development. The achievement of this overarching goal rests on an assumption that development does not happen by chance or by accident but rather through the deliberate application of analytical tools which public policy is able to provide. Set within an Asian context, the book emphasizes the role of public policy in reducing poverty, eliminating deprivation, promoting equity, and ensuring social justice. The book likewise aims to provide an argument for the developmental role of the state, one which has been the subject of a long-standing debate among development scholars. In addition, the book accounts for the role of civil society organizations, particularly their involvement in multi-stakeholder participation. Through different case studies, this book explains the outcome of public policy decisions as combinations of efforts among government and civil society actors to ensure the creation of the most optimal public good. Finally, the book takes a comparative perspective, i.e., there are cases that directly or indirectly implicate the regional character of public policies that result in the creation and distribution of regional public goods.

Bread, Freedom, Social Justice Anne Alexander, Mostafa Bassiouny, 2014-10-09 Accounts of the Arab Spring often focus on the role of youth coalitions, the use of social media, and the tactics of the Tahrir Square occupation. This authoritative and original book argues that collective action by organized workers played a

fundamental role in the Egyptian revolution which erupted after years of strikes and social protests Drawing on the authors decade long experience of reporting on and researching the Egyptian labour movement the book provides the first in depth account of the emergence of independent trade unions and workers militancy during Mubarak s last years in power and and their destabilising impact on the post revolutionary regimes

Peripheralization Matthias Naumann,Andrea Fischer-Tahir,2013-01-12 Peripheries emerge as a result of shifts in economic and political decision making at various scales Therefore peripheral spaces are not a natural phenomenon but an outcome of the intrinsic logic of uneven geographical development in capitalist societies Discussing examples from Germany Eastern Europe Turkey Iraqi Kurdistan Pakistan India and Brazil the volume describes the social production of peripheries from different theoretical and methodological perspectives In so doing it argues in favour of a re politicization of the recent debate on peripheralization
