Ib Estonian Paper 1 2013:

Instruments of Land Policy Jean-David Gerber, Thomas Hartmann, Andreas Hengstermann, 2018-01-17 In dealing with scarce land planners often need to interact with and sometimes confront property right holders to address complex property rights situations To reinforce their position in situations of rivalrous land uses planners can strategically use and combine different policy instruments in addition to standard land use plans Effectively steering spatial development requires a keen understanding of these instruments of land policy This book not only presents how such instruments function it additionally examines how public authorities strategically manage the scarcity of land either increasing or decreasing it to promote a more sparing use of resources It presents 13 instruments of land policy in specific national contexts and discusses them from the perspectives of other countries Through the use of concrete examples the book reveals how instruments of land policy are used strategically in different policy contexts *Yearbook of International Organizations 2013-2014 (Volumes 1a-1b)*

Union Of International Associations, Union of International Associations, 2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events Development Cooperation of the 'New' EU Member States

Ondřej Horký-Hlucháň, 2015-08-03 The book provides a comprehensive analysis of the international development policies of ten Central and Eastern European countries that joined the EU between 2004 and 2007 The contributors offer the first thorough overview of the new EU member states development cooperation programmes placing them in a larger political and societal context *TV Socialism*

Anikó Imre, 2016-05-19 In TV Socialism Anik Imre provides an innovative history of television in socialist Europe during and after the Cold War Rather than uniform propaganda programming Imre finds rich evidence of hybrid aesthetic and economic practices including frequent exchanges within the region and with Western media a steady production of varied genre entertainment elements of European public service broadcasting and transcultural multi lingual reception practices These televisual practices challenge conventional understandings of culture under socialism divisions between East and West and the divide between socialism and postsocialism Taking a broad regional perspective encompassing Eastern Europe and the Soviet Union Imre foregrounds continuities between socialist television and the region s shared imperial histories including the programming trends distribution patterns and reception practices that extended into postsocialism Television she argues is key to understanding European socialist cultures and to making sense of developments after the end of the Cold War and the enduring global legacy of socialism

Small States and International Security Clive Archer, Alyson J.K. Bailes, Anders Wivel, 2014-03-14 This book explains what small states are and explores their current security challenges in general terms and through specific examples It reflects the shift from traditional security definitions emphasizing defence and armaments to new security concerns such as economic societal and environmental security where institutional cooperation looms larger These complex issues linked with traditional power relations and new types of actors need to be tackled with due regard to democracy and

good governance Key policy challenges for small states are examined and applied in the regional case studies The book deals mainly with the current experience and recent past of such states but also offers insights for their future policies Although many of the states covered are European the study also includes African Caribbean and Asian small states Their particular interest and relevance is outlined as is the connection between their security challenges and their smallness Policy lessons for other states are then sought The book is the first in depth multi continent study of security as an aspect of small state governance today It is novel in placing the security dilemmas of small states in the context of wider ideas on international and institutional change and in dealing with non European states and regions **Britannica Book of the Year** ,2015

Debates for the Digital Age Danielle Sarver Coombs,Simon Collister,2015-11-23 By evaluating the Internet s impact on key cultural issues of the day this book provides a comprehensive overview of the seismic technological and cultural shifts the Internet has created in contemporary society Books about Internet culture usually focus on the people places sites and memes that constitute the cutting edge at the time the book is written That approach alas renders such volumes quickly obsolete This provocative work on the other hand focuses on overarching themes that will remain relevant for the long term The insights it shares will highlight the tremendous impact of the Internet on modern civilization and individual lives well after specific players and sites have fallen out of favor Content is presented in two volumes The first emphasizes the positive impact of Internet culture for example 24 hour access to information music books merchandise employment opportunities and even romance The second discusses the Internet s darker consequences such as a demand for instant news that often pushes journalists to prioritize being first over being right online scams and invasions of privacy that can affect anyone who banks shops pays bills or posts online Readers of the set will clearly understand how the Internet has revolutionized communications and redefined human interaction coming away with a unique appreciation of the realities of today s digital world for better and for worse Regime Changes in 20th Century Europe Noora Kotilainen,Tuomas Kuronen,Marja Vuorinen,2016-12-14 In retrospect historical change often appears to be both logical and inevitable Yet as a process as a series of moments it is by nature open ended The protagonists are unaware of the potential consequences of their choices as well as the meaning of their actions in the greater scheme of things An individual in real time and in the middle of events has little scope for understanding the whole The dynamic of a regime change involves a journey away from a particular past towards a chosen future while the practices of the old regime are called into question The competing visions for a better future often include a reactionary option looking back towards an older period perceived as a golden age waiting to be restored In the aftermath of a regime change the new cadres seeking to consolidate their power form the new conservative bloc of the society When revolutionary forces again begin to gather the regime disintegrates and the cycle begins again So far regime changes have been analysed as unique one off events This book traces what such processes regardless of their ideological colour have in common How does political power change hands What are the mental and material tools of change

From the last stages of World War I to the present Crimean crisis the case studies in this book offer timeless insights for understanding ideological and military conflicts including the undercurrents of the present Russo Western relations

Crippling Leviathan Melissa M. Lee Desfor, 2020-04-15 Policymakers worry that ungoverned spaces pose dangers to security and development Why do such spaces exist beyond the authority of the state Earlier scholarship which addressed this question with a list of domestic failures overlooked the crucial role that international politics play In this shrewd book Melissa M Lee argues that foreign subversion undermines state authority and promotes ungoverned space Enemy governments empower insurgents to destabilize the state and create ungoverned territory This kind of foreign subversion is a powerful instrument of modern statecraft But though subversion is less visible and less costly than conventional force it has insidious effects on governance in the target state To demonstrate the harmful consequences of foreign subversion for state authority **Crippling Leviathan** marshals a wealth of evidence and presents in depth studies of Russia's relations with the post Soviet states Malaysian subversion of the Philippines in the 1970s and Thai subversion of Vietnamese occupied Cambodia in the 1980s The evidence presented by Lee is persuasive foreign subversion weakens the state She challenges the conventional wisdom on statebuilding which has long held that conflict promotes the development of strong territorially consolidated states Lee argues instead that conflictual international politics prevents state development and degrades state authority In addition **Crippling Leviathan** illuminates the use of subversion as an underappreciated and important feature of modern statecraft Rather than resort to war states resort to subversion Policymakers interested in ameliorating the consequences of ungoverned space must recognize the international roots that sustain weak statehood

Computer Security Sokratis Katsikas, Frédéric Cuppens, Nora Cuppens, Costas Lambrinoudakis, Christos Kalloniatis, John Mylopoulos, Annie Antón, Stefanos Gritzalis, Frank Pallas, Jörg Pohle, Angela Sasse, Weizhi Meng, Steven Furnell, Joaquin Garcia-Alfaro, 2020-02-21 This book constitutes the refereed post conference proceedings of the 5th International Workshop on Security of Industrial Control Systems and Cyber Physical Systems CyberICPS 2019 the Third International Workshop on Security and Privacy Requirements Engineering SECPRE 2019 the First International Workshop on Security Privacy Organizations and Systems Engineering SPOSE 2019 and the Second International Workshop on Attacks and Defenses for Internet of Things ADIoT 2019 held in Luxembourg City Luxembourg in September 2019 in conjunction with the 24th European Symposium on Research in Computer Security ESORICS 2019 The CyberICPS Workshop received 13 submissions from which 5 full papers and 2 short papers were selected for presentation They cover topics related to threats vulnerabilities and risks that cyber physical systems and industrial control systems face cyber attacks that may be launched against such systems and ways of detecting and responding to such attacks From the SECPRE Workshop 9 full papers out of 14 submissions are included The selected papers deal with aspects of security and privacy requirements assurance and evaluation and security requirements elicitation and modelling and to GDPR compliance The SPOSE Workshop received 7 submissions from which 3 full papers and 1 demo

Authoritarian Laughter Neringa Klumbytė,2022-12-15 Winner of the 2024 BASEES British Association for Slavonic and East European Studies Women s Forum Authoritarian Laughter explores the political history of the satire and humor magazine Broom published in Soviet Lithuania Artists writers and journalists were required to create state sponsored Soviet humor and serve the Communist Party after Lithuania was incorporated into the Soviet Union in 1940 Neringa Klumbytė investigates official attempts to shape citizens into Soviet subjects and engage them through a culture of popular humor Broom was multidirectional it both facilitated Communist Party agendas and expressed opposition toward the Soviet regime Official satire and humor in Soviet Lithuania increasingly created dystopian visions of Soviet modernity and were a forum for critical ideas and nationalist sentiments that were mobilized in anti Soviet revolutionary laughter in the late 1980s and early 1990s Authoritarian Laughter illustrates that Soviet Western peripheries were unstable and their governance was limited While authoritarian states engage in a statecraft of the everyday and seek to engineer intimate lives authoritarianism is defied not only in revolutions but in the many stories people tell each other about themselves in jokes cartoons and satires

Confronting an "Axis of Cyber"? Fabio Rugge,2018-10-24 The new US National Cyber Strategy points to Russia China North Korea and Iran as the main international actors responsible for launching malicious cyber and information warfare campaigns against Western interests and democratic processes Washington made clear its intention of scaling the response to the magnitude of the threat while actively pursuing the goal of an open secure and global Internet The first Report of the ISPI Center on Cybersecurity focuses on the behaviour of these usual suspects investigates the security risks implicit in the mounting international confrontation in cyberspace and highlights the current irreconcilable political cleavage between these

four countries and the West in their respective approaches in and around cyberspace **Reading Russian Sources** George Gilbert, 2020-01-20 Reading Russian Sources is an accessible and comprehensive guide that introduces students to the wide range of sources that can be used to engage with Russian history from the early medieval to the late Soviet periods Divided into two parts the book begins by considering approaches that can be taken towards the study of Russian history using primary sources It then moves on to assess both textual and visual sources including memoirs autobiographies journals newspapers art maps film and TV enabling the reader to engage with and make sense of the burgeoning number of different sources and the ways they are used Contributors illuminate key issues in the study of different areas of Russia's history through their analysis of source materials exploring some of the major issues in using different source types and reflecting recent discoveries that are changing the field In so doing the book orientates students within the broader methodological and conceptual debates that are defining the field and shaping the way Russian history is studied Chronologically wide ranging and supported by further reading along with suggestions to help students guide their own enquiries Reading Russian Sources is the ideal resource for any student undertaking research on Russian history **Stalin's Final Films** Claire

Knight, 2024-07-15 Stalin's Final Films explores a neglected period in the history of Soviet cinema breathing new life into a body of films long considered moribund as the pinnacle of Stalinism While film censorship reached its apogee in this period and fewer films were made film attendance also peaked as Soviet audiences voted with their seats and distinguished a clearly popular postwar cinema Claire Knight examines the tensions between official ideology and audience engagement and between education and entertainment inherent in these popular films as well as the financial considerations that shaped and constrained them She explores how the Soviet regime used films to address the major challenges faced by the USSR after the Great Patriotic War World War II showing how war dramas spy thrillers Stalin epics and rural comedies alike were mobilized to consolidate an official narrative of the war reestablish Stalinist orthodoxy and dramatize the rebuilding of socialist society Yet Knight also highlights how these same films were used by filmmakers more experimentally exploring a diverse range of responses to the ideological crisis that lay at the heart of Soviet postwar culture as a victorious people were denied the fruits of their sacrificial labor After the war new heroes were demanded by both the regime and Soviet audiences and filmmakers sought to provide them with at times surprising results Stalin's Final Films mines Soviet cinema as an invaluable resource for understanding the unique character of postwar Stalinism and the cinema of the most repressive era in Soviet history

'The Politics' and 'The Political' of the Eastern Partnership Initiative Elena Korosteleva, Igor Merheim-Eyre, Eske Van Gils, 2019-10-23 The Special Issue consolidates new approaches to the study of the EU's role in the eastern neighbourhood and beyond informed by post structuralist traditions in international relations More specifically by revisiting the European Neighbourhood Policy's agenda from the conceptual perspective of the political and redefining the notions of othering differentiation and normalisation this volume renders a new and much needed theoretical and empirical outlook

onto the policy developments and their practices By unpacking and connecting security regional institutional normative and sector thematic policy dimensions the book seeks to re politicise the agenda and re focus policy revision on understanding the fundamentals of power relations when applied to the EU external relations In light of the compounding crises external and internal one can no longer afford to simply tinker around the edges of the policy content and instruments A more radical theoretical undertaking is overdue to re shape re define and re centre the EU relations with the eastern region especially put in the context of the new EU s Global Security Strategy and the new aspirations for the 2017 European Neighbourhood summit The chapters originally published as a special issue in East European Politics

Everyday Belonging in the Post-Soviet Borderlands Alina Jašina-Schäfer, 2021-04-28 *Everyday Belonging in the Post Soviet Borderlands* examines the Russophone communities in peripheral cities adjacent to the Russian borders in Estonia and Kazakhstan The research adopts a cross disciplinary space sensitive approach that focuses comparatively on individual memories narratives and performances Based on ethnographic examples this book reconstructs belonging as a complex dialectical relationship between inclusion and exclusion This relationship it is argued manifests itself through a continuous spiral of boundary construction appropriation and transgression among different versions of Estonianness and Kazakhness Europeanness and Cosmopolitanness as well as Russianness

Smart Country - Connected. Intelligent. Digital. Bertelsmann Stiftung, 2017-06-12 As the digital divide between urban and rural regions grows not everyone everywhere benefits from the opportunities of digital transformation This year s Reinhard Mohn Prize Smart Country Connected Intelligent Digital highlights digital solutions that strengthen social inclusion and the quality of life across regions and socioeconomic groups The results of this year s international search for good practices in the areas of health and care mobility and logistics public administration and learning and information policy are featured in this publication Also featured are the lessons learned from pioneering digital nations such as Austria Estonia Israel and Sweden which have application for Germany as it develops its own national digital strategy builds its network infrastructure deepens digital competencies and advances the intelligent application of technology

The Donbas Conflict in Ukraine Daria Platonova, 2021-09-28 This book examines why when the conflict in eastern Ukraine began in 2014 fighting broke out in the Donetsk region whereas it did not in Kharkiv city despite the city like the Donetsk region being geographically proximate to Russia and similar in ethnic and linguistic make up Based on extensive original research the book argues that a key factor was the nature and behaviour of local elites with those in Kharkiv having diffuse ties to the centre and therefore being more capable of adapting to sudden profound regime change at the centre whereas the elites in the Donetsk region had much more concentrated ties to the centre were dependent on one network and therefore were much less able to cope with change The book thereby demonstrates how crucial for Ukraine are patronal politics patronage networks and informal centre region relations and that it was these local political circumstances rather than Russia which brought about the conflict
