The Inhabited Ruins of Central Europe D. Gafijczuk, D. Sayer, 2013-09-27 Focusing on Central Europe the volume proposes a new paradigm of how culture works based on a model of inhabited ruins as a space where contradictory elements come together into continually renewed and frequently paradoxical configurations Examines art architecture literature and music [The Colorblind Screen](#) Sarah Nilsen, Sarah E. Turner, 2014-04-04 In *The Colorblind Screen* the contributors examine television's role as the major discursive medium in the articulation and contestation of racialized identities in the United States While the dominant mode of televisual racialization has shifted to a colorblind ideology that foregrounds racial differences in order to celebrate multicultural assimilation the volume investigates how this practice denies the significant social economic and political realities and inequalities that continue to define race relations today Focusing on such iconic figures as President Obama LeBron James and Oprah Winfrey many chapters examine the ways in which race is read by television audiences and fans Other essays focus on how visual constructions of race in dramas like *24* *Sleeper Cell* and *The Wanted* continue to conflate Arab and Muslim identities in post 9 11 television The volume offers an important intervention in the study of the televisual representation of race engaging with multiple aspects of the mythologies developing around notions of a post racial America and the duplicitous discursive rationale offered by the ideology of colorblindness Publisher's website **Religious Ideology and the Roots of the Global Jihad** J. Turner, 2014-08-26 The events of 9 11 prompted questions as to the origins nature and purpose of international jihadist organisations In particular why had they chosen to target the US and the West in general Turner's book provides a unique holistic insight into these debates taking into account historical perceptions and ideology as key factors [Into the Void](#) James D. Kiras, Martijn Kitzen, 2024-06-06 The moment in the sun for special operations sometimes appears to have passed seemingly eclipsed by preparations for potential conflict under the guise of great power competition combined with failure in Afghanistan Yet the war in Ukraine serves as a reminder that special operations play an even greater role today before during and presumably after conflict The challenge remains dealing with current irregular and hybrid threats at the same time as preparing for an uncertain future as threats and

technologies evolve at a dizzying pace Focusing too much on the future of conventional warfare creates a void in national security discussions related to special operations This book seeks to fill that gap drawing on the expertise of scholars and practitioners in the field from the Indo Pacific Europe and the United States to answer what if anything special operations can or should seek to do and how The contributors explore such topics as proxies non state special forces capabilities innovation and transformation artificial intelligence and special operations in space and cyberspace These chapters are united by their analysis that special operations will have future strategic and operational value for allies and adversaries alike provided that difficult choices are made in the present

Judicial Decision-Making in a Globalised World Elaine Mak, 2013-11-22 Why do judges study legal sources that originated outside their own national legal system and how do they use arguments from these sources in deciding domestic cases Based on interviews with judges this book presents the inside story of how judges engage with international and comparative law in the highest courts of the United Kingdom Canada the United States France and the Netherlands A comparative analysis of the views and experiences of the judges clarifies how the decision making of these Western courts has developed in light of the internationalisation of law and the increased opportunities for transnational judicial communication While the qualitative analysis reveals the motives that judges claim for using foreign law and the influence of globalist and localist approaches to judging the author also finds suggestions of a convergence of practices between the courts that are the subject of this study This empirical analysis is complemented by a constitutional theoretical inquiry into the procedural and substantive factors of legal evolution which enable or constrain the development and possible convergence of highest courts practices The two strands of the analysis are connected in a final contextual reflection on the future development of the role of Western highest courts

The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh s first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year

existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace s reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America s oldest public schools *The Chinese Constitution of Central Asia* N. Godehardt, 2014-03-21 China s commitments in Central Asia illustrate how regional foreign policy works and how long standing principles of Chinese foreign policy might be revised in the near future China s rise has moved Asia which is why it seems that what we have traditionally regarded as the geographic and political scope of Asia might actually considerably change in the near future Nadine Godehardt gives crucial insights into the Chinese expert discourse on Central Asia analyzing how Chinese experts define Central Asia when they talk and write about policy issues related to China s immediate Western neighbourhood In this context she gives an inside perspective on Chinese voices whose meanings are rarely examined in Chinese International Relations studies *When Galleries Shake* Jerry Podany, 2017-10-17 Earthquakes pose myriad dangers to heritage collections worldwide This book provides an accessible introduction to these dangers and to the methodologies developed at the Getty and other museums internationally for mitigating seismic vulnerability Conceived as a primer and reference this abundantly illustrated volume begins with an engaging overview of explanations for earthquakes from antiquity to the nineteenth century A series of chapters then addresses our modern understanding of seismic events and approaches for mitigating the damage they cause to heritage collections covering such subjects as earthquake measurement hazard analysis the response of buildings and collections to seismic events mount making and risk assessment short sections by specialists in seismic engineering complement the main text throughout Readers will find a range of effective seismic mitigation measures from simple low cost approaches to complex base isolation techniques In bridging the gap between seismologists and seismic engineers on the one hand and collections care professionals on the other this volume will be of interest to conservators registrars designers mount makers and others

involved in the management and care of collections in museums and other cultural institutions *Microhistories of the Holocaust* Claire Zalc,Tal Bruttman,2016-12-01 How does scale affect our understanding of the Holocaust In the vastness of its implementation and the sheer amount of death and suffering it produced the genocide of Europe s Jews presents special challenges for historians who have responded with work ranging in scope from the world historical to the intimate In particular recent scholarship has demonstrated a willingness to study the Holocaust at scales as focused as a single neighborhood family or perpetrator This volume brings together an international cast of scholars to reflect on the ongoing microhistorical turn in Holocaust studies assessing its historiographical pitfalls as well as the distinctive opportunities it affords researchers *Hollywood's Indies* Yannis Tzioumakis,2012-03-07 For almost three decades the big Hollywood studios have operated classics divisions or specialty labels subsidiaries that originally focused on the foreign art house film market while more recently and controversially moving on to the American indie film market This is the first book to offer an in depth examination of the phenomenon of the classics divisions by tracing its history since the establishment the first specialty label in 1980 United Artists Classics to more contemporary outfits like Focus Features Warner Independent and Picturehouse This detailed account of all classics divisions examines their business practices their position within the often labyrinthine structure of contemporary entertainment conglomerates and their relationship to their parent companies Yannis Tzioumakis examines the impact of those companies on American indie cinema and argues that it was companies such as Fox Searchlight and Paramount Classics now Paramount Vantage that turned independent filmmaking to an industrial category endorsed by the Hollywood majors as opposed to a mode of filmmaking practised outside the conglomerated major players and posed as a sustained alternative to mainstream Hollywood cinema A number of case studies are provided including such celebrated films as *Mystery Train* *The Brothers McMullen* *Broken Flowers* *Before Sunset* and many others *History of the Caucasus* Christoph Baumer,2023-10-05 *In the Shadow of Great Powers* is the second volume of Christoph Baumer s *History of the Caucasus* It covers the period from the Seljuk domination of the Southern Caucasus around 1050 CE to the present day After the Kingdom of Georgia s golden age of independent power and cultural blossoming in the 12th and early 13th centuries the Caucasus was overrun by the Mongols and soon disintegrated into innumerable smaller kingdoms principalities and khanates At the same time an Armenian kingdom in exile maintained a precarious independence in Cilicia today s southern Turkey by applying a three way diplomatic policy balanced between the Mongol Il Khanate the Crusader states and to a lesser degree the Mameluke Empire Then followed four centuries during which the highly fragmented polities of the North and South Caucasus became political pawns of the regional great powers above all the Ottomans Iran and Russia In the wake of World War I the South Caucasus enjoyed a short lived independence whereas its northern neighbours were engulfed by the Russian civil wars But by 1921 the Soviet Union had re established Russian dominance over the whole region and from a Western perspective the region disappeared behind the Iron Curtain Nevertheless the Caucasian nations kept

their pronounced identities even under Soviet rule giving rise at the dissolution of the Soviet Union to a number of internecine conflicts Whereas the Russian Federation managed to maintain its supremacy over the North Caucasus albeit at the cost of bloody wars and insurrections Armenia Azerbaijan and Georgia succeeded in more or less gaining control over their destiny Of these three republics only Azerbaijan secured a wide ranging independence thanks to its fossil fuel resources Following Russian interference Georgia lost control over two of its provinces while Armenia remains dependent on Russian support in the face of its notoriously antagonistic relations with neighbouring Azerbaijan and Turkey over the unresolved issue of Karabakh In the Shadow of Great Powers includes some 200 full colour images and maps which further bring the turbulent history of this region to light Introducing the IB Diploma Programme Marc Abrioux, Jill Rutherford, 2013-02-14 Schools wishing to introduce the IB diploma programme are faced with major investment in terms of time effort and money in order to become authorised This manual is a resource for schools already offering the diploma as well as for prospective diploma schools The Vampire in Folklore, History, Literature, Film and Television, 2015-10-07 This comprehensive bibliography covers writings about vampires and related creatures from the 19th century to the present More than 6 000 entries document the vampire s penetration of Western culture from scholarly discourse to popular culture politics and cook books Sections by topic list works covering various aspects including general sources folklore and history vampires in literature music and art metaphorical vampires and the contemporary vampire community Vampires from film and television from Bela Lugosi s Dracula to Buffy the Vampire Slayer True Blood and the Twilight Saga are well represented **Push Back** Judith Large, 2016-12-15 In 2009 after decades of conflict the Sri Lankan government proclaimed the decisive defeat of the Liberation Tamil Tigers of Elam Subsequently the state proved resistant to attempts by the UN and other international bodies to promote post war reconciliation or reform In this incisive new work Judith Large investigates the ways in which the Rajapaksa government was able to subvert international diplomatic efforts as well as exploring the wider context of rising Sinhalese nationalism the attendant growth of discrimination against minorities and efforts by both the diaspora and citizens within Sri Lanka to work towards a positive peace Push Back is vital reading not only for those interested in Sri Lanka but also for those concerned about the wider implications of the conflict for human rights peace making and geopolitics

Social Movements in Violently Divided Societies John Nagle, 2016-02-26 Violently divided societies present major challenges to institutions seeking to establish peace in places characterised by ethnic conflict and high levels of social segregation Yet such societies also contain groups that refuse to be confined within separate forms of ethnic community and instead develop alternative modes of action that generate shared identities build trust and foster consensual peaceful politics Advancing a unique social movement approach to the study of violently divided societies this book highlights how various social movements function within a context of violent ethnic politics and provide new ways of imagining citizenship that complements peacebuilding By analysing the impact of social movements on divided societies this book contributes to

debates about the complexity of belonging and identity and constructs a nuanced understanding of political mobilisation in regions defined by ethnic violence In turn the book provides important insights into the dynamics of social movement mobilisation Based on the author s extensive research in Lebanon and Northern Ireland and drawing on numerous examples from other divided societies this book examines a range of social movements including nationalists victims sexual minorities labour movements feminists environmentalists secularists and peace movements Bringing together social theory and case studies in order to consider how grassroots movements intersect with political institutions this book will be of interest to students scholars and policymakers working in sociology and politics

Empire Ways

Bernard Porter,2015-10-30 The British Empire was an astonishingly complex and varied phenomenon not to be reduced to any of the simple generalisations or theories that are

often taken to characterise it One way of illustrating this and so conveying some of the subtle flavour of the thing itself is to descend from the over arching to the particular and describe and discuss aspects of it in detail This book by the well known imperial historian Bernard Porter ranges among a wide range of the events and personalities that shaped or were shaped by British imperialism or by its decline in the post war years These include chapters on science drugs battles proconsuls an odd assortment of imperialists including Kipling Lady Hester Stanhope and TE Lawrence architecture music the role of MI6 and the reputation of the Empire since its demise Together the chapters inform explain provoke and occasionally amuse but above all they demonstrate the kaleidoscopic variety and ambivalence of Britain s imperial history
