

Cut and paste the images in the correct story order.

There were 3 frogs that lived on an island. One frog was named Jessica, and she was very curious!

When the egg hatched, an alligator came out. The frogs all thought it was a chicken, though.

They found the alligator's mom Jessica and the other frogs thought it was strange the mom called her baby "chicken" an alligator.

Jessica and the alligator met a bird that helped them find the alligator's mom.

One day, Jessica thought she found a HUGE pebble. It was actually an egg!

Exploring Education Alan R. Sadovnik, Peter Cookson, Jr., Susan Semel, Ryan Coughlan, 2017-10-10

This much anticipated fifth edition of *Exploring Education* offers an alternative to traditional foundations texts by combining a point of view analysis with primary source readings. Pre and in service teachers will find a solid introduction to the foundations disciplines: history, philosophy, politics, and sociology of education, and their application to educational issues including school organization and teaching, curriculum and pedagogic practices, education and inequality, and school reform and improvement. This edition features substantive updates including additions to the discussion of neo liberal educational policy, recent debates about teacher diversity, updated data and research, and new selections of historical and contemporary readings. At a time when foundations of education are marginalized in many teacher education programs and teacher education reform pushes scripted approaches to curriculum and instruction, *Exploring Education* helps teachers to think critically about the what and why behind the most pressing issues in contemporary education.
