The Extracellular Matrix and Ground Regulation Alfred Pischinger, 2007-07-17 The workings of the suitable environment for cells called the extracellular matrix ECM and ground regulation has occupied the European medical tradition since the early part of the 20th century As it has become more clear that the origin of disease and its first signals register in the connective tissue or myofascia cellular pathologists and biochemists have sought to circumscribe networks of cell communication and microcirculation in the ECM Alfred Pischinger 1899 1982 continued this line of work by further studying in work published from 1926 through the late seventies the connections of the ECM to the hormonal and autonomic systems In the last twenty years Professor and Doctor of Natural Sciences Hartmut Heine and his colleagues have carried on Pischinger s work here summarized in one volume Part One encompasses theoretical underpinnings Parts Two and Three address applications and directions for further research This updated English language translation not only is an account of the work of Pischinger s successors Heine Otto Bergsmann and Felix Perger the three editors of this volume and their many colleagues but notes the positive development of complementary therapies based on this understanding of histology Acupuncture is referenced directly Both in Europe and the States the work of manual therapists including Rolfers cranio sacral therapists and other somatic disciplines have been informed for many years by Pischinger s outsider model of how changes in the EMC register in the central nervous system and the brain and are conveyed back to the periphery and connected organs Heine s exciting recent work shows that the regulation and construction of the ECM have relationships to cybernetic non linear systems and phase transitions Reversibility of Chronic Degenerative Disease and Hypersensitivity, Volume 1 William J. Rea, Kalpana Patel, 2010-06-18 The clinical approaches to the chronic degenerative diseases that drain our resources and compromise our well being have become almost exclusively symptom focused The common wisdom is that

they are idiopathic with final outcomes to be managed rather than prevented or cured That they are potentially reversible rarely enters into any discussion b *Holistic Medicine and the Extracellular Matrix* Matthew Wood,2021-09-28 Examines the function of the extracellular matrix the inner ocean that unifies all our cells and controls them in a coordinated and integrated fashion Explores how the extracellular matrix builds and repairs itself and how holistic therapy can be applied based on this knowledge Introduces new and old holistic and herbal protocols for treatment of the matrix The cells in our bodies are not independent units They do not control their own feeding elimination migration or reproduction they are controlled by signals from the extracellular matrix ECM that surrounds them This all encompassing inner ocean unifies all our cells and controls them in a coordinated and integrated fashion Revealing the stunning implications of the extracellular matrix Matthew Wood shows how it clearly explains the actions and efficacy of holistic therapies He explores the groundbreaking research of Alfred Pischinger who discovered the ECM in 1975 as well as the role of the matrix in transmitting and enacting the genetic code including the roles of the mitochondria the nucleus and ribosomes Wood explains how modern drugs directed at specific receptors on the cell membrane interfere with bodily self regulation He details how holistic therapies modify the environment of the cell and strengthen the whole bringing the body back to homeostasis and consequently offering true healing **Clinical EFT Handbook Volume 1** Dawson Church,Stephanie Marohn,2013-05-30 EFT Emotional Freedom Techniques or tapping is used by an estimated 10 million people worldwide Yet a lack of standardization has led to a field in which dozens of forms of EFT with varying degrees of fidelity to the original can be found This led to the establishment of Clinical EFT the form of EFT taught in the original EFT Manual and associated materials and validated in over 20 clinical trials In this volume the most noted scholars researchers and clinicians in the field compile a definitive outline of the EFT protocol as it is applied in medicine psychiatry psychotherapy and life coaching This first volume covers Biomedical and Physics Principles Psychological Trauma Fundamental Techniques of Clinical EFT This series of handbooks is essential reading for anyone wishing to understand EFT as validated in research science and best clinical practice **Matrix Energetics** Richard Bartlett,2009-07-07 Now available in paperback this paradigm busting program can teach anyone how to access their own creative power to heal and transform their lives In 1997 Dr Richard Bartlett experienced a life altering event that redirected the entire course of his personal and professional existence Suddenly by lightly touching others with focused intent he could make pain instantly disappear and most astonishing of all he could teach anyone how to do it Now for the millions of Americans looking for empowerment in an age of declining healthcare Dr Bartlett shares this scientific phenomenon in a book of explosive potential **Reversibility of Chronic Disease and Hypersensitivity, Volume 5** William J. Rea,Kalpna D. Patel,2017-12-14 The clinical approaches to the chronic degenerative diseases that drain our resources and compromise our well being have become almost exclusively symptom focused The common wisdom is that they are idiopathic with final outcomes to be managed rather than prevented or cured That they are

potentially reversible rarely enters any discussion between doctor and patient Reversibility of Chronic Disease and Hypersensitivity Volume 5 Treatment Options of Chemical Sensitivity the final volume of this set offers a much different perspective on chronic degenerative disease one that disputes the idiopathic label attached to most as well as the usual fatalistic prognosis Hormesis in Health and Disease Suresh I.
