Brophy,2019-01-02 In the music classroom instructors who hope to receive aid are required to provide data on their classroom programs Due to the lack of reliable valid large scale assessments of student achievement in music however music educators in schools that accept funds face a considerable challenge in finding a way to measure student learning in their classrooms From Australia to Taiwan to the Netherlands music teachers experience similar struggles in the quest for a definitive assessment resource that can be used by both music educators and researchers In this two volume Handbook contributors from across the globe come together to provide an authority on the assessment measurement and evaluation of student learning in music The Handbook s first volume emphasizes international and theoretical perspectives on music education assessment in the major world regions This volume also looks at technical aspects of measurement in music and outlines situations where theoretical foundations can be applied to the development of tests in music The Handbook s second volume offers a series of practical and US focused approaches to music education assessment Chapters address assessment in different types of US classrooms how to assess specific skills or requirements and how assessment can be used in tertiary and music teacher education classrooms Together both volumes of The Oxford Handbook of Assessment in Music Education pave the way forward for music educators and researchers in the field

*Aiming for Global Accounting Standards* Kees Camfferman,Stephen A. Zeff,2015-03-26 The International Accounting Standards Board IASB and its International Financial Reporting Standards IFRSs have acquired a central position in the practice and regulation of financial reporting around the world As a unique instance of a private sector body setting standards with legal force in many jurisdictions the IASB s rise to prominence has been accompanied by vivid political debates about its governance and accountability Similarly the IASB s often innovative attempts to change the face of financial reporting have made it the centre of numerous controversies This book traces the history of the IASB from its foundation as successor to the International Accounting Standards Committee IASC and discusses its operation changing membership and leadership the development of its standards and their reception in jurisdictions around the world The book gives particular attention to the IASB s relationships with the European Union the United States and Japan as well as to the impact of the

financial crisis on the IASB's work. By its in-depth coverage of the history of the IASB, the book provides essential background information that will enrich the perspective of everyone who has to deal with IFRSs or the IASB at a technical or policy making level.

*The Governance Gap* Penelope Simons, Audrey Macklin, 2014-07-11 This book explores the persistence of the governance gap with respect to the human rights impacting conduct of transnational extractive corporations operating in zones of weak governance. The authors launch their account with a fascinating case study of Talisman Energy's experience in Sudan informed by their own experience as members of the 1999 Canadian Assessment Mission to Sudan. Harker Mission Drawing on new governance reflexive law and responsive law theories, the authors assess legal and other non-binding governance mechanisms that have emerged since that time, including the UN Guiding Principles on Business and Human Rights. They conclude that such mechanisms are incapable of systematically preventing human rights violating behaviour by transnational corporations or of assuring accountability of these actors or recompense for victims of such violations. The authors contend that home state regulation, while not a silver bullet, has a crucial role to play in regulating such conduct. They pick up where UN Special Representative John Ruggie's Guiding Principles on Business and Human Rights left off and propose an innovative, robust and adaptable template for strengthening the regulatory framework of home states. Their model draws insights from the theoretical literature, leverages existing public-private transnational, national, soft and hard regulatory tools, and harnesses the specific strengths of state-based governance. This book will be of interest to academics, policy makers, students, civil society and business leaders.

**The American Jewish Philanthropic Complex** Lila Corwin

Berman, 2022-08-30 The first comprehensive history of American Jewish philanthropy and its influence on democracy and capitalism. For years, American Jewish philanthropy has been celebrated as the proudest product of Jewish endeavors in the United States, its virtues extending from the local to the global, the Jewish to the non-Jewish, and modest donations to vast endowments. Yet as Lila Corwin Berman illuminates in *The American Jewish Philanthropic Complex*, the history of American Jewish philanthropy reveals the far more complicated reality of changing and uneasy relationships among philanthropy, democracy and capitalism. With a fresh eye and lucid prose, and relying on previously untapped sources, Berman shows that from its nineteenth-century roots to its apex in the late twentieth century, the American Jewish philanthropic complex tied Jewish institutions to the American state. The government's regulatory efforts, most importantly tax policies, situated philanthropy at the core of its experiments to maintain the public good without trammeling on the private freedoms of individuals. Jewish philanthropic institutions and leaders gained financial strength, political influence and state protections within this framework. However, over time, the vast inequalities in resource distribution that marked American state policy became inseparable from philanthropic practice. By the turn of the millennium, Jewish philanthropic institutions reflected the state's growing investment in capitalism against democratic interests. But well before that, Jewish philanthropy had already entered into a tight relationship with the governing forces of American life, reinforcing and even transforming the nation's

laws and policies The American Jewish Philanthropic Complex uncovers how capitalism and private interests came to command authority over the public good in Jewish life and beyond *Building Drexel* Richardson Dilworth, Scott Gabriel Knowles, 2016-12-12 Published in conjunction with Drexel University's 125th anniversary *Building Drexel* chronicles the founding of the university by Anthony J. Drexel through to the present day The editors and contributors create a prismatic discussion of the university and its evolution Richly illustrated chapters cover the architectural history of notable Drexel buildings the role of Drexel in Philadelphia's modern history its Greek life sports particularly Drexel's history in the Big 5 and each of the university's schools and colleges There is a history of the medical college and law school plus the creation of new schools such as those of biomedical engineering science and health systems *Building Drexel* also documents the civil rights history of Drexel and its urban planning history in relation to the racially diverse Powelton Village and Mantua neighborhoods it borders This commemorative volume shows the development of the university both in the city and in the world Contributors include Lloyd Ackert Cordelia Frances Biddle Paula Marantz Cohen Donna Marie De Carolis Roger Dennis Gloria Donnelly Kevin D Egan Alissa Falcone David Fenske John A Fry Stephen F Gambescia Marla J Gold Charles Haas Kathy Harvatt Daniel Johnson Jeannine Keefer Larry Keiser Michael Kelley Jason Ludwig Jonson Miller Julie Mostov Danuta A Nitecki Anthony M Noce Steven J Peitzman David Raizman Tiago Saraiva Amy E Slaton Nathaniel Stanton Virginia Theerman Laura Valenti James Wolfinger Eric A Zillmer and the editors *Harvard Square* Catherine J. Turco, 2023-02-28 *Harvard Square* isn't what it used to be Spend any time there and you're bound to hear that lament Yet people have been saying the very same thing for well over a century So what does it really mean that Harvard Square or any other beloved Main Street or downtown isn't what it used to be Catherine J Turco an economic sociologist and longtime denizen of Harvard Square set out to answer this question after she started to wonder about her own complicated feelings concerning the changing Square Diving into Harvard Square's past and present Turco explores why we love our local marketplaces and why we so often struggle with changes in them Along the way she introduces readers to a compelling set of characters including the early twentieth century businessmen who bonded over scotch and cigars to found the Harvard Square Business Association a feisty frugal landlady who became one of the Square's most powerful property owners in the mid 1900s a neighborhood group calling itself the Harvard Square Defense Fund that fought real estate developers throughout the 1980s and 90s and a local businesswoman who in recent years strove to keep her shop afloat amid personal tragedy the rise of Amazon and a globalizing property market that sent her rent soaring *Harvard Square* tells the crazy complicated love story of one quirky little marketplace and in the process reveals the hidden love story Americans everywhere have long had with their own Main Streets and downtowns Offering a new and powerful lens that exposes the stability and instability the security and insecurity markets provide Turco transforms how we think about our cherished local marketplaces and markets in general We come to see that our relationship with the markets in our lives is and has always been about our relationship with

ourselves and one another how we come together and how we come apart      **Bulletin** New York (N.Y.). Board of Standards and Appeals,1928      **Helping Beyond the 50-Minute Hour** Jeffrey A. Kottler,Matt Englar-Carlson,Jon Carlson,2013-07-18

Slacktivism is a term that has been coined to cynically describe the token efforts that people devote to some cause without long term or meaningful impact We wear colored wristbands pins or ribbons proclaiming support for a particular organization We might post something on social network sites or send messages to friends about causes dear to our hearts We might even volunteer our time to work on behalf of marginalized oppressed or neglected groups or donate money to a charity Yet the key feature of significant social action is follow through continuing efforts over a period of time so as to build meaningful relationships provide adequate support and conduct evaluations to measure results and make needed adjustments that make programs even more responsive This book is intended as an inspiration for practicing psychotherapists and counselors as well as students to become actively involved in a meaningful effort The authors have searched far and wide to identify practitioners representing different disciplines helping professions geographic regions and social action projects all of whom have been involved in social justice efforts for some time whether in their own communities or in far flung regions of the world Each of them has an amazing story to tell that reveals the challenges they ve faced the incredible satisfactions they ve experienced and what lessons they ve learned along the way Each story represents a gem of wisdom revealing both questions of faith as well as of sustained action The authors have been encouraged to dig deeply in order to talk about the honest realities of their work After reading their stories you will be ready to pick a cause that speaks to you and begin your own work      *Creating the Hudson River Park* Tom Fox,2024-04-12 The 4 mile long 550 acre Hudson River Park is nearing completion and is the largest park built in Manhattan since Central Park opened more than 150 years ago It has transformed a derelict waterfront protected the Hudson River estuary preserved commercial maritime activities created new recreational opportunities for millions of New Yorkers enhanced tourism stimulated redevelopment in adjacent neighborhoods and set a precedent for waterfront redevelopment The Park attracts seventeen million visitors annually Creating the Hudson River Park is a first person story of how this park came to be Working together over three decades community groups civic and environmental organizations labor the real estate and business community government agencies and elected officials won a historic victory for environmental preservation the use and enjoyment of the Hudson River and urban redevelopment However the park is also the embodiment of a troubling trend toward the commercialization of America s public parks After the defeat of the 2 4 billion Westway plan to fill 234 acres of the Hudson in 1985 the stage was set for the revitalization of Manhattan s West Side waterfront Between 1986 and 1998 the process focused on the basics like designing an appropriate roadway removing noncompliant municipal and commercial activities from the waterfront implementing temporary improvements developing the Park s first revenue producing commercial area at Chelsea Piers completing the public planning and environmental review processes and negotiating the 1998 Hudson River Park Act that

officially created the Park From 1999 to 2009 planning and construction were funded with public money and focused on creating active and passive recreation opportunities on the Tribeca Greenwich Village Chelsea and Hell s Kitchen waterfronts However initial recommendations to secure long term financial support for the Park from the increase in adjacent real estate values that resulted from the Park s creation were ignored City and state politicians had other priorities and public funding for the Park dwindled The recent phase of the project from 2010 to 2021 focused on development both in and adjacent to the Park Changes in leadership and new challenges provide an opportunity to return to a transparent public planning process and complete the redevelopment of the waterfront for the remainder of the 21st century Fox s first person perspective helps to document the history of the Hudson River Park recognizes those who made it happen and those who made it difficult and provides lessons that may help private citizens and public servants expand and protect the public parks and natural systems that are so critical to urban well being

*Programme Procurement in Construction* John Mead,Stephen Gruneberg,2013-03-06 This book adds to the impressive legacy of learning which is still emerging from the successful delivery of the London 2012 construction programme The authors combine the reforming zeal of a champion for change who was there every step of the way with academic rigour and the result is delivered with impressive passion and commitment to the topic All spenders and suppliers need to read this to understand how conventional understandings of procurement fall so dramatically short when applied to high value high risk acquisitions which invariably is what large construction projects represent Don Ward Chief Executive Constructing

Excellence UK Successful construction is often attributed to one or more aspects of the delivery process from good planning design and clever engineering to efficient project management and quality construction Before any of these disciplines can begin they all require some form of procurement to select the team or supply chain to meet a client's or a project's specific requirements The concept of PSE Purchase and Supplier Engineering originated in the procurement of the construction and infrastructure required to stage the 30th Olympiad in London during 2012 At the time of writing PSE has successfully delivered almost 25bn of public procurement meeting client and project requirements and without legal challenge The construction of the venues and infrastructure needed to stage London 2012 was such a resounding success that it boosted not only the reputation of the UK construction industry but also the confidence of the UK population in the country's ability to organise build and run a major international event Its success has been lauded as something from which clients and industry could learn The ODA has established a comprehensive and informative body of evidence as part of a Learning Legacy While the ODA is well aware of the many elements of the procurement and supply chain management the complete end to end concept of how the Olympic supply chain procurements were managed has until now not been captured For example how does one buy the stage for an Olympic Games How does one manage the details of thousands of contracts and the many firms of contractors subcontractors and material suppliers and ensure that no one organisation adversely affects any other to the detriment of the programme How are a client's requirements beyond those of the capital asset realised as part of the investment How does one measure programme exposure or manage performance How does one measure capacity and the ability of firms to cope with the work and manage the risks involved Programme Procurement in Construction Learning from London 2012 covers the planning and preparation of a programme's procurement processes from understanding and developing the client's requirements to monitoring performance based on the benchmarks contractors set out in their own tender submissions The emphasis is on a close attention to detail to avoid surprises while keeping a focus on the total programme Purchase and Supplier Engineering provides an overview of managing the interest of firms in participating and the resulting capacity and workloads of all suppliers including the main contractors and the critical subcontractors and material suppliers Offering techniques tips and lessons learnt from the implementation of PSE on London 2012 and Crossrail this book is aimed at public and private sector clients developers senior management and those businesses and professionals involved in undertaking the procurement supply chain management and delivery of multiple construction projects or complex major construction programmes
