Methods For Data Management And Data Privacy Private Data Aggregation:

Methods for data management and data privacy. Private data aggregation Thomas Hoffmann, 2014-11-20 Seminar paper from the year 2014 in the subject Computer Science Applied grade 1.0 Karlsruhe Institute of Technology KIT language English abstract Following the nuclear disaster in Fukushima in 2011 the German federal government has decided to shut down half of the existing nuclear power plants in Germany immediately and to not have any nuclear power plants at all running by 2022 To compensate the loss of energy formerly produced by these power plants many solar collectors windmills and other sources of renewable energy are being installed So instead of having a few big power plants delivering a predictable amount of energy at all time the situation will soon be a decentralized grid of less powerful energy sources whose production is dependent on the weather Also many of those solar collectors are owned by the general public and are not under the direct control of any big utility company
