

Thank you for purchasing a Firex smoke alarm. It is an important component of your home security system. Please read this document thoroughly. The more familiar you are with the information it contains, the easier you will find it to install, operate, and maintain your smoke alarm properly, which ultimately means greater security and peace of mind for you and your family.

Smoke Alarm Advantages

Fire protection type alarms are generally more effective at detecting fire, warning you, and alerting your family more quickly and easily than any other type of alarm. Alarms of most types include flameless liquid or glass burning in a sealed container. The photoelectric type alarm are generally more effective at detecting fires, including fires that cannot be seen before burning into flames. Some of these fires may include cigarette burning in ashtrays or bedding. However, both types of alarm are designed to provide adequate detection of both types of fires. If you have the flameless optical system, you should install smoke alarm that contain at one alarm both photoelectric and ionization sensing technology.
