situates the practice within a burgeoning movement toward self sufficiency and home economics that resonated with readers of her era Grace Viall Gray an influential figure in 20th century domestic science dedicated her life to educating homemakers on the art of preservation and nutrition Drawing upon her extensive experience in both cooking and community education Gray aspired to demystify the canning process empowering women in an age marked by shifts in food sourcing and household management Her work reflects a deep commitment to culinary innovation and the importance of tradition in food preparation This book is a vital resource for anyone interested in home canning whether novice or experienced Gray s expert tips coupled with her clear engaging writing style make Every Step in Canning an essential addition to both culinary libraries and the sustainable cooking practices of today **Better Fruit, Better Vegetables** ,1917 American Primary Teacher ,1914 **The Banker-farmer** ,1913 **Daughters and Granddaughters of Farmworkers** Barbara Wells,2013-11-15 In Daughters and Granddaughters of Farmworkers Barbara Wells examines the work and family lives of Mexican American women in a community near the U S Mexican border in California s Imperial County Decades earlier their Mexican parents and grandparents had made the momentous decision to migrate to the United States as farmworkers This book explores how that decision has worked out for these second and third generation Mexican Americans Wells provides stories of the struggles triumphs and everyday experiences of these women She analyzes their narratives on a broad canvas that includes the social structures that create the barriers constraints and opportunities that have shaped their lives The women have constructed far more settled lives than the immigrant generation that followed the crops but many struggle to provide adequately for their families These women aspire to achieve the middle class lives of the American Dream But upward mobility is an elusive goal The realities of life in a rural agricultural border community strictly limit social mobility for these descendants of immigrant farm laborers Reliance on family networks is a vital strategy for meeting the economic challenges they encounter Wells illustrates clearly the ways in which the long shadow of farm work continues to permeate the lives and prospects of these women and their families **Ms. Moffett's First Year** Abby Goodnough,2009-04-28 In summer of 2000 legal secretary Donna Moffett answered an ad for the New York City Teaching Fellows program which sought to recruit talented professionals from other fields to teach in some of the city s worst schools Seven weeks later she was in a first grade classroom in Flatbush Brooklyn nearly completely unprepared for what she was about to face New York Times education reporter Abby Goodnough followed Donna Moffett through her first year as a teacher writing a frontpage award winning series that galvanized discussion nationwide Now she has expanded that series into a book that through the riveting story of Moffett s experiences explores the gulf between the rhetoric of education reform and the realities of the public school classroom Ms Moffett s First Year is neither a Hollywood friendly tale of one person making a difference nor a reductive indictment of the public education system It is rather a provocative portrait of the inadequacy of good intentions of the challenges of educating poor and immigrant populations and of a well meaning but underprepared woman becoming a

teacher the hard way While the story takes place in New York Ms Moffett s first year is a metaphor for the experiences of teachers everywhere in America one that illuminates the philosophical economic political and ideological dilemmas that have come more and more to determine their experience and their students experiences in the classroom
