**First Aid Book** Andrew Larry,2021-07-13 First aid is the assistance that one gives to a person who has an emergency medical condition such as serious bleeding choking or the need for CPR It is essential for people who may not be trained in other areas of healthcare For example paramedics are valuable because they have medical training and equipment to handle more serious emergencies than someone without those qualifications It is important to learn First Aid because it can help save someone's life This is especially true for those who do not have training in other areas of healthcare and are the first to respond to emergencies It is also important because a person's life may be saved by knowing how to provide basic assistance in an emergency through CPR or the Heimlich maneuver Within the United States alone about 300 000 people die from heart disease every year CDC One should be able to give correct CPR because it could relieve a person from cardiac arrest until medical professionals can arrive First Aid could also be useful for many other reasons such as burns bleeding and bone and muscle injuries The purpose of this book is to inform the reader of the information needed to help someone with an emergency and to provide tips for how to respond if confronted with one When learning how to give first aid it is important to know who would be more appropriate for the situation First aid training can be done in a classroom setting but it may not be necessary There are many reasons why an individual would need first aid training and how it could benefit them or others The most important reason why one would need first aid is because they may not have any other medical training CDC The information you learn will be useful in the future to save a person's life The following are a few reasons why it is important to have first aid training This book covers General First Aid Knowledge First Aid Knowledge to be Mastered and Developed Drugs Used in First Aid Common Types of Drug Administration Sites Splints for Broken Bones and Joints Gravity First Aid Development of Basic First Aid Skills Special Needs of the Elderly People and Handicapped People in Case of Illness or Accident Pregnancy in Case of an Accident Childbirth in Case of an Accident And much more Everyone should know how to

give basic first aid such as bandaging wounds splints and using an oxygen mask Knowing how to provide these types of first aid may be useful in the future For example someone who has an injury may not have any medical training however they could be able to give good quality first aid if they were educated on the subject Also knowing how to help with a burn or bleeding wound allows one to help with painlessly Also it could save the person s life until medical professionals arrive This book will surely help you in getting the right knowledge skills and attitude to become a good first aider This book will cover step by step instructions on how to save someone s life     **Johnson's First Aid Manual** Fred Barnett Kilmer,1916
