Quality and Inclusion in Education N.V.

Varghese, Anjana Mangalagiri, A. Mathew, 2023-05-12 This book calls for an equitable and qualitative access to education for all. It proposes paradigms of educational governance that are based on coalition building between key stakeholders, are grounded in local and cultural contexts sensitive to the language needs of communities. It underlines the significance of gender sensitive and inclusive approaches that ensure equity for marginalized children and minorities. Based on research based studies, the volume focuses on equity, quality and learning covering a broad spectrum from school to higher to adult education. It discusses the multiple learner deprivations amongst the marginalized communities and the severe impact of events such as pandemics that exacerbate learner inequities and the recent developments in India under the National Education Policy 2020. It also presents research based country experiences in the Asian India, Bangladesh, China and African Ghana, South Africa contexts showing how external influences on the changing priorities in policy perspectives cut across developing countries. Compiled in honour of Professor R. Govinda, this volume of insightful articles will be of interest to students and researchers of educational policy and studies, sociology of education, equity and human rights. It will also be useful for decision makers and think tanks.

*Transforming Universities in South Africa*, 2020-08-31 The idea of transformation in higher education underpins all policy documents, academic literature and on going debates in South Africa. *Transforming Universities in South Africa: Pathways to Higher Education Reform* responds to the pressing need to comprehensively review the post apartheid experience and assess where South Africa's higher education stands across the continent and globally, particularly within the country's efforts to overcome decades of socio economic imbalances. It addresses the question of whether South Africa's transformation strategy from apartheid to democracy was simply a symbolic new flag raising and new anthem singing exercise reflecting a transition akin to those limited decolonization projects elsewhere in the world or whether something more fundamental was possible and was achieved with political and policy implications for other countries in Africa and globally. This volume's ultimate purpose is to provide a basis for imagining new futures in which South Africa higher education in the context of Africa and the global world takes centre stage.

**Responsibility of Higher Education Systems**, 2020-06-29 The evolving societal, political and economic landscape has led to increased demands on higher education institutions to make their contribution and benefits to society more visible and in many cases with fewer public resources. This book contributes to the understanding of the responsibilities of Higher Education and the challenges posed to the production and circulation of knowledge. It raises questions about the role of higher education in society, its responsibility towards students and staff and regarding its intended impact. The book brings together a range of topical papers and a diversity of perspectives: scientific investigations of reputed scholars, critical evidence based papers of third space professionals and policymakers, perspectives on the daily practice and management of higher education institutions and systems. The variety of both content and contributors elevates the richness of the book and its relevance for a large audience. Contributors are Victor M. H. Ang, 2016 We show that changes in choice architecture have a large effect on student loan decisions while we do not find significant effects of sizeable interest rate changes We evaluate the effect of two policies implemented in 2010 by the U S Department of Education 1 the requirement that all applicants for private student loans fill out a Self Certification Form which includes various disclosures about federal aid and 2 the prohibition of presenting a private student loan as a default option on a financial aid offer without disclosure of the relationship between the school and the creditor Using difference and difference and matching techniques on a proprietary dataset of private student loan originations from the Consumer Financial Protection Bureau and survey and administrative data from the Department of Education we show that these changes decreased private student loan originations by 33% at public four year institutions 18% at private not for profit four year institutions and 55% at four year for profit institutions In contrast we find no consumer response when analyzing 60 basis point decrease in the price of federal Parental PLUS loans at some schools using same datasets and similar estimation techniques

*Report of the NASFAA Task Force on Student Loan Indebtedness* National Association of Student Financial Aid Administrators (NASFAA), 2013 In light of increasing concern about student loans debt levels and rising default rates which coincide with worries about college costs affordability and transparency the National Association of Student Financial Aid Administrators NASFAA convened a task force in 2012 to study this issue and make recommendations for improvement NASFAA s Task Force on Student Indebtedness was charged with examining current trends and making recommendations aimed at improving the system for students and institutions throughout all stages of borrowing including pre borrowing in school and repayment NASFAA s Board of Directors reviewed and approved the eight recommendations featured in this report Taken together these eight recommendations address shortcomings in the current student loan system at each level of borrowing preborrowing in school and repayment They were each designed with the goal of achieving 1 More informed borrowers 2 More responsible borrowing 3 Tools or frameworks for institutions to assist borrowers 4 More borrowers successfully repaying their loans and 5 Federal and institutional policies that reinforce all of the above In contrast to the recent loan program changes which arose strictly out of fiscal concerns these recommendations are intended to serve as starting points for meaningful policy discussions surrounding borrowing and student loan reform The hope is that these discussions will lead toward better designed loan programs that serve the needs of today s borrowers as they pursue their educational goals Members of the task force include Chuck Knepfle Chair Brenda Brown Chris Christensen Dan Davenport Ron Day Pam Fowler Anna Griswold Rita Grogan Jane Hickey Kevin Jensen Craig Munier David Page Bernie Pekala Tom Sakos Yara Santana Rick Shipman and Joan Zanders

**Student Loans and Social Mobility** Mehran Ebrahimian, 2020 Students of poor families invest much less than rich families in college education To assess the role of financing constraints and subsidy schemes in explaining this gap I structurally estimate an IO finance model of college choice in the presence of financing frictions The estimation uses novel nationally representative data on US high school and college students I propose

a novel identification strategy that relies on bunching at federal Stafford loan limits and differences between in and out of state tuition I find that the college investment gap is mainly due to fundamental factors heterogeneity in preparedness for college and the value added of college rather than financing constraints faced by lower income students Making public colleges tuition free would substantially reduce student debt but it would disproportionately benefit wealthier students and it would entail more than 15B deadweight loss per year by distorting college choices Expanding Pell grants in contrast would benefit lower income students at a much lower cost
