Whymark,2023-10-17 Ask anyone outside of Austin what they know about the city and chances are the first thing they ll mention is the music While the Armadillo Era has been well chronicled there is no book about Austin music in the 90s Greg Beets and Richard Whymark were part of the scene at that time making zines playing in bands and DJ ing at the college radio station and have put together an oral history of the decade Beets and Whymark are not trying to cover all of the music made in Austin during the 1990s they re most interested in the underground punk community in which they participated While a few of those bands got big e g Spoon the music remained mostly local DIY It was driven by live shows though local media radio TV print record stores and a few labels were also important to the story Beets and Whymark devote chapters to those elements but almost half of the chapters are based around a particular club Organizing the book around physical spaces is not only appropriate for telling the story of the music it is nice framing for the larger story of Austin As the authors note the city was still a relatively sleepy place in the early 1990s with vacant blocks downtown and loads of small clubs that opened and closed simply because music minded people wanted a place to play By 1999 longtime venues like the Electric Lounge and Liberty Lunch were bulldozed to make way for development and tech companies **Adam Brody** Nancy
