steps guidance and stimulus for success Success does not happen immediately Achieving success happens by having a series of successes The first successes are small but as you move up one step at a time you will move up to accomplish higher and higher achievements Aim High is a self help book about self improvement I have written the sixteen step aim high path to personal achievement study guide in a way that I hope will help all who read it improve the quality of their lives We go through life making choices We have the capacity to direct our destiny by the choices we make In the Aim High book I have presented sixteen points I call steps Effort Example Enthusiasm Spiritual Physical Personal Encouragement Personality Financial Career Looks Speak Purpose Plan Belief Action These sixteen points provide guidance and serve as a stimulus for success through self motivation It is the awaking of the inner self to the potential that can be realized In order to reach your highest and fullest potential you must first have the courage to think to imagine to dream Dream What do you want for yourself out of life What do you desire The definition of desire in thesaurus is synonyms with hunger craving longing and yearning Desire will stoke your self motivation to do Your first priority is to decide and establish what you desire as your goal Goal setting is the single most important ingredient in self motivation that leads to achieving success Your next priority is to write out a specific plan of action about how you are going to achieve your goal and you should know why you want you desire it Then go after your goal with passion a burning desire within you To do it My grandson Ryan invited me to go to the movie The Empire Strikes Back I was impressed with what the Jedi teacher teaches his student about engaging the force that is the greatest power in the universe He tells his student that there is no try that there is either do or not do Another important ingredient necessary to achieve success is self confidence Self confidence is a by product of preparation and in order to succeed you must discipline yourself to establish the habit of doing what need to be done Now not tomorrow Affirm to yourself I have faith and belief in myself that I will achieve my goal because I expect to achieve it because I will work hard to do so and that no matter what the circumstances I will never give up Action is what produces results Do Power The thrust of Aim High is to implant the sixteen steps outlined in this book into your mind as seeds necessary for success We are all born with a powerful tool our brain and it is up to each and every one of us to learn how to use that powerful tool more efficiently and effectively On the cover of Aim High there is a red dot in the center That dot represents you and you are your own bulls eye To try to hit right in the center of the bulls ey     *Total Baseball* ,2001     The Psychology of Baseball Mike Stadler,2007-04-05 Get inside the minds of the stars of the diamond in this extraordinary tour of brain power psyche and sheer will Yogi Berra once said Baseball is 90 percent mental The other half is physical Even so the Yankee great may have underestimated the brain power professional baseball players routinely draw on to perform such astounding feats of athleticism as hitting 98 mph fastballs and diving to catch line drives In The Psychology of Baseball Mike Stadler goes beneath the surface of the game to explore the psychology behind the actions of the game s greats and breaks down legendary moments from baseball history such as Willie Mays s full sprint over the shoulder grab in the 1954 World Series

Stadler begins with the mind's role in the game's basic skills explaining the anticipatory thinking that can make a hitter see a rising fastball the complex muscular coordination required to throw a major league heater and the intense spatial calculations the brain must perform in a split second in order for a fielder to catch a struck ball Stadler then discusses the hidden nature of streaks and slumps explaining why a hot hitter is most likely just getting lucky and why there's no such thing as a clutch hitter and also looks at the psychological basis of the so-called sophomore slump and the effect that a big money contract has on a player's performance He also examines the personality types that are best suited to baseball and explains what traits are most associated with success at the highest levels A revolutionary new look at America's pastime that will appeal to the many fans of bestsellers like *Moneyball* and *Three Nights in August* *The Psychology of Baseball* is a must-read book for the serious baseball fan
