The Cold War Begins, 1945–1960

STARTUP QUESTION - Step into the Place:

Read and discuss the primary sources on pages 394-395

How do the United States and the Soviet Union each seem to be interpreting the intentions of the other nation?

US perspective -> The driving force behind the imperialism camp is the USA. The cardinal purpose of the imperialism camp is to strengthen imperialism, to hatch a new imperialism war, to combat socialism and democracy, and to support the reactionary and antidemocratic profascist regimes.

USSR perspective -> The USSR still believes in antagonistic capitalist encirclement with which in the long run there can be no permanent peaceful existence.

Lesson 1 The Origins of the Cold War

I. Building a New World

A. In July of 1944, President Roosevelt invited world leaders to Bretton Woods, NH, with the purpose of organizing the world's postwar economic systems. At the conference leaders created two key institutions: the **World Bank**, which lends money to weaker nations, and the **International Monetary Fund (IMF)** which helps nations with trade deficits (import more than they export).

B. Also in 1944 delegates from 39 nations met in the city of **Washington DC** to discuss a new organization called the **United Nations (UN)**. This organization would have a **General Assembly** of member nations and also a **Security Council** of eleven members.

C. When the Soviet Union liberated **Poland** in 1944, they encouraged the establishment of a **Communist Government** government. The pre-war government had fled to **Britain**. Churchill and Roosevelt agreed to **recognize the government** if members of the pre-war government were included and that **two elections** be held as soon as possible.

D. The leaders issued the Declaration of Liberated Europe that asserted all nations have the right to **choose government**.

E. The Allies divided Germany into **four** zones. Each one would be controlled by one Allied nation. They also insisted Germany pay **heavy reparations** for the war.

F. Tension between the United States and the Soviet Union led to the **Cold War**. The Soviets believed in a **communist** economic system. U.S. leaders believed that an **enterprise** system was the key to peace.

II. Truman Takes Control

A. In July 1945 Truman and Stalin met at the **Potsdam Conference**. Truman believed **an industry** was crucial for Germany, while the Soviet Union believed it needed **reparations** from Germany.

B. The Soviets refused to uphold the Declaration of Liberated Europe (DLE). The countries of Eastern Europe would set up **Communist** governments and came to be known as **satellite nations**. Churchill later described it as an **iron curtain** falling across Eastern Europe.

American Vision, Unit 9 Resources McGraw-Hill Staff,2002-05 Why Intelligence Fails Robert Jervis,2010-12-15

The U S government spends enormous resources each year on the gathering and analysis of intelligence yet the history of American foreign policy is littered with missteps and misunderstandings that have resulted from intelligence failures In Why Intelligence Fails Robert Jervis examines the politics and psychology of two of the more spectacular intelligence failures in recent memory the mistaken belief that the regime of the Shah in Iran was secure and stable in 1978 and the claim that Iraq had active WMD programs in 2002 The Iran case is based on a recently declassified report Jervis was commissioned to undertake by CIA thirty years ago and includes memoranda written by CIA officials in response to Jervis s findings The Iraq case also grounded in a review of the intelligence community s performance is based on close readings of both classified and declassified documents though Jervis s conclusions are entirely supported by evidence that has been declassified In both cases Jervis finds not only that intelligence was badly flawed but also that later explanations analysts were bowing to political pressure and telling the White House what it wanted to hear or were willfully blind were also incorrect Proponents of these explanations claimed that initial errors were compounded by groupthink lack of coordination within the government and failure to share information Policy prescriptions including the recent establishment of a Director of National Intelligence were supposed to remedy the situation In Jervis s estimation neither the explanations nor the prescriptions are adequate The inferences that intelligence drew were actually quite plausible given the information available Errors arose he concludes from insufficient attention to the ways in which information should be gathered and interpreted a lack of self awareness about the factors that led to the judgments and an organizational culture that failed to probe for weaknesses and explore alternatives Evaluating the inherent tensions between the methods and aims of intelligence personnel and policymakers from a unique insider s perspective Jervis forcefully criticizes recent proposals for improving the performance of the intelligence
