A: Opportunity cost is the real cost of an item. In the real world, you have to give up something in order to get it. A: The opportunity cost would be like taking the opportunity cost of your time and the opportunity cost of the charges associated with shipping fees plus the time spent waiting on the computer versus if you were at the store and being able to get the computer right away, which minus of the cost saving you to receive it by buying online rather than buying at the computer store.
