

Hotel Operations Manual

The publication of **Standards of Performance (SOP) Manuals**, **On-The-job Training Manuals** in all hotel departments is a prerequisite and significant component of implementing a Training Plan in hotel operations. The manual provides employees with a clear picture of what will be expected of them and, in turn, what they can expect for their dedication to quality.

HCC Hospitality Standards of Performance (SOP) Manuals begin with a set of customer-focused service standards for "Guest Expectations" which apply to all service staff. The service standards must be communicated to all employees to make sure that employees know precisely what is expected of them and gain commitment to meeting these standards.

The content of the "**Standards of Performance (SOP) Manuals**" is a list of key tasks that line employees and supervisors must perform to ensure the delivery of quality service to guests. Most of the key tasks represent opportunities for employees to meet and exceed a guest's expectations.

The core part of the manuals is the "**SERVICE TASK Breakdown**" of different key job tasks inclusive of **PROCEDURES**, and **STANDARDS** of judging correct performance of job duties. A breakthrough of the manuals is that the Task Breakdown of different key tasks is not merely a reference guide for the Training Plan, but can also be the training materials for all employees to perform their daily duties.

The measurement of conformance to standards is particularly important. We must determine how well standards are being met, identify areas needing attention and provide helpful feedback to employees. This includes **recognizing top performers, redirecting incorrect performance and personal coaching for improvement.**

The system implementation and upkeep of the Training Plan is the responsibility of the Hotel General Manager.

Political Risk Intelligence for Business Operations in Complex Environments Robert Mckellar,2023-06-19 Macro level dynamics and modelling are well represented in the mainstream political risk literature However not many writings on the subject get their hands dirty in terms of revealing the hard nuanced and practical work behind knowing what the issues might be for a specific foreign operation in a sensitive or volatile context and how to plan for them Political Risk Intelligence for Business Operations in Complex Environments provides international managers and by extension their organisations with a foundational understanding of political risk analysis and planning for on the ground operations in challenging times and places This means having a fluid grasp of what political risk means and why it matters in

the organisation's context and how relevant intelligence can be gathered and analysed to inform decisions and planning towards an organisation's socio-political resilience The book explains How and why political risk manifests and the forms it can take Company attitudes and operational attributes as a political risk variable Understanding the operational implications of socio-political dynamics and trends Stakeholder identification and analysis for informed engagement planning Scenario analysis to prepare for long term contingencies and discontinuities Holistic intelligence driven political risk management planning Tactical intelligence exercises to maintain awareness and inform adaptation Intelligence management collection and quality control Ethical considerations in political risk management Rather than being bound by conventional notions of risk the book emphasises the dynamic relationship between a foreign operation and its host environment and milieu as a source of both challenges and opportunities to manage them Concepts frameworks and practices are rounded out with real world examples and relevant lessons from the author's experience as a political risk consultant
