CompTIA Security+ is the first security certification IT professionals should earn. It establishes the core knowledge required of any cybersecurity role and provides a springboard to intermediate-level cybersecurity jobs. Security+ incorporates best practices in hands-on trouble-shooting to ensure security professionals have practical security problem-solving skills. Cybersecurity professionals with Security+ know how to address security incidents – not just identify them.

Security+ is compliant with ISO 17024 standards and approved by the US DoD to meet directive 8140/8570.01-M requirements. Regulators and government rely on ANSI accreditation, because it provides confidence and trust in the outputs of an accredited program. Over 2.3 million CompTIA ISO/ANSI-accredited exams have been delivered since January 1, 2011. [↗]

Study Guide to John E. H. Sherry, "The Laws of Innkeepers, Third Edition" Gwen Seaquist, 2018-10-18 Here is the new completely

updated and expanded edition of the indispensable handbook used throughout the hospitality industry since *The Laws of Innkeepers* first appeared in 1972. Containing all the legal information essential to the successful operation of modern hotels, motels, inns, bed and breakfasts, clubs, restaurants, and resorts, the book has been extensively revised by John E. H. Sherry to accommodate the far-reaching changes that have occurred since the publication of the revised edition in 1981. Sherry, a practicing lawyer and professor of hotel administration, carries over from the highly praised earlier editions detailed information on the rights and responsibilities of host and guest alike. He cites actual cases ranging from the amusing and the bizarre to the tragic as examples and spells out in precise and readily understandable terms exactly what state and federal law says. Broadening the scope of the book to keep up with recent legal developments, the author includes many new case decisions and summaries from various jurisdictions. Three chapters devoted to employment law, environmental law, and land use and catastrophic risk liability are among the highlights of the new material. These new sections present recent rulings and case law on such timely topics as age disability and AIDS discrimination, as well as sexual harassment, government regulation of toxic and hazardous substances, and hotel and resort development and acts of God and the Public Enemy and terrorism.
