**International Handbook of Interpretation in Educational Research** Paul Smeyers,David Bridges,Nicholas C. Burbules,Morwenna Griffiths,2015-01-06 This handbook focuses on the often neglected dimension of interpretation in educational research It argues that all educational research is in some sense interpretive and that understanding this issue belies some usual dualisms of thought and practice such as the sharp dichotomy between qualitative and quantitative research Interpretation extends from the very framing of the research task through the sources which constitute the data the process of their recording representation and analysis to the way in which the research is finally or provisionally presented The thesis of the handbook is that interpretation cuts across the fields both philosophically organizationally and methodologically By covering a comprehensive range of research approaches and methodologies the handbook gives early

career researchers what they need to know in order to decide what particular methods can offer for various educational research contexts fields An extensive overview includes concrete examples of different kinds of research not limited for example to teaching and learning examples as present in the Anglo Saxon tradition but including as well what in the German Continental tradition is labelled p dagogisch examples from child rearing and other contexts of non formal education with full description and explanation of why these were chosen in particular circumstances and reflection on the wisdom or otherwise of the choice combined in each case with consideration of the role of interpretation in the process The handbook includes examples of a large number of methods traditionally classified as qualitative interpretive and quantitative used across the area of the study of education Examples are drawn from across the globe thus exemplifying the different opportunities and constraints that educational research has to confront in different societies *Streaming by the Rest of Us* Mia

Consalvo,Marc Lajeunesse,Andrei Zanescu,2025-02-18 An in depth investigation of the Twitch streamers who make up the largest population on the platform those streaming to small audiences or even no one The vast majority of people who stream themselves playing videogames online do so with few or no viewers In *Streaming by the Rest of Us* Mia Consalvo Marc Lajeunesse and Andrei Zanescu investigate who they are why they do so and why this form of leisure activity is important to understand Unlike the esports athletes and streaming superstars who receive the lion s share of journalistic and academic attention microstreamers are not in it for the money and barely have an audience In this the first book dedicated to the latter group the authors gather interviews from dozens of microstreamers from 2017 to 2019 to discuss their lives struggles hopes and goals For readers interested in livestreaming and Twitch in particular the book rethinks the medium s history through accounts of the everyday uses of webcams with particular attention to notions of liveness and authenticity These two concepts have become calling cards for the videogame livestreaming platform and underlie streamer motivations the construction of their practices whether casual serious or anywhere in between and the complex metas that take shape over time The book also looks at the authors own practices of livestreaming focusing on what can be gained through experiencing the lived reality of the practice Finally the authors explain how Twitch s platform studied from 2017 2023 informs how streamers structure their every day and how corporate ideologies bleed into real world spaces like TwitchCon
