What Do Pictures Want? W. J. T. Mitchell, 2013-12-23 Why do we have such extraordinarily powerful responses toward the images and pictures we see in everyday life Why do we behave as if pictures were alive possessing the power to influence us to demand things from us to persuade us seduce us or even lead us astray According to W J T Mitchell we need to reckon with images not just as inert objects that convey meaning

but as animated beings with desires needs appetites demands and drives of their own What Do Pictures Want explores this idea and highlights Mitchell s innovative and profoundly influential thinking on picture theory and the lives and loves of images Ranging across the visual arts literature and mass media Mitchell applies characteristically brilliant and wry analyses to Byzantine icons and cyberpunk films racial stereotypes and public monuments ancient idols and modern clones offensive images and found objects American photography and aboriginal painting Opening new vistas in iconology and the emergent field of visual culture he also considers the importance of Dolly the Sheep who as a clone fulfills the ancient dream of creating a living image and the destruction of the World Trade Center on 9 11 which among other things signifies a new and virulent form of iconoclasm What Do Pictures Want offers an immensely rich and suggestive account of the interplay between the visible and the readable A work by one of our leading theorists of visual representation it will be a touchstone for art historians literary critics anthropologists and philosophers alike A treasury of episodes generally overlooked by art history and visual studies that turn on images that walk by themselves and exert their own power over the living Norman Bryson
