 Welcome to the proceedings of the 8 International Conference on Pervasive Computing Pervasive 2010 After Toronto Sydney  
 and Nara the conference has now returned to Europe Pervasive is one of the most important conferences in the area of  
 pervasive and ubiquitous computing As in the previous year we had two categories of technical papers Full Papers and Notes  
 Pervasive attracted 157 valid submissions from which the Technical Program Committee TPC accepted 24 full papers and  
 one note resulting in an overall acceptance rate of 16% The submissions included 628 authors from 27 countries  
 representing all the continents except Antarctica As we can see from these figures Pervasive is a truly global highly  
 competitive conference A major conference such as Pervasive requires a rigorous and objective process for selecting papers  
 This starts with the selection of a high quality TPC We were fortunate to be able to draw on the wisdom and experience of  
 our 28 TPC members from the most prestigious universities and research labs in Europe North America and Asia This  
 committee was aided by the input of no less than 238 external reviewers chosen on the basis of their domain knowledge and  
 relevance to pervasive computing The papers were selected using a double blind review with four peer reviews per paper  
 a discussion phase among the reviewers and a discussion of the papers in the TPC meeting which was held in Palo Alto during  
 December 12 13 2009 We thank Nokia Research Center for hosting the meeting Complete CompTIA A+ Guide to IT
