IAMSAR Manual International Maritime Organization, 2013 The primary purpose of the three volumes of the International Aeronautical and Maritime Search and Rescue Manual (IAMSAR Manual) is to assist States in meeting their own search and rescue (SAR) needs and the obligations they accepted under the Convention on International Civil Aviation, the International Convention on Maritime Search and Rescue, and the International Convention for the Safety of Life at Sea (SOLAS). These volumes provide guidelines for a common aviation and maritime approach to organizing and providing SAR services. States are encouraged to develop and improve their SAR services, co-operate with neighbouring States, and to consider their SAR services to be part of a global system. Each volume of the IAMSAR Manual is written with specific SAR system duties in mind and can be used as a stand-alone document or in conjunction with the other two Manuals as a means to attain a full view of the SAR system. The Organization and Management volume (volume I) discusses the global SAR system concept, establishment, and improvement of national and regional SAR systems, and co-operation with neighbouring States to provide effective and economical SAR services. The Mission Coordination volume (volume II) assists personnel who plan and co-ordinate SAR operations and exercises. The Mobile Facilities volume (volume III) is intended to be carried aboard rescue units, aircraft, and vessels to help with performance of a search rescue or on-scene co-ordinator function and with aspects of SAR that pertain to their own emergencies.
