The Economic Effects of Air Transport Market

Liberalisation Eyden Samunderu, 2024-09-19 This book rigorously examines the air transport market liberalisation process on the African continent and presents key highlights challenges and impediments to embracing an open skies market environment in Africa It focuses on the economic impact of air transport liberalisation policy constraints challenges of harmonisation and regional economic integration and its impact on air transport development employing a quantitative assessment based on the Air Transport Liberalisation Index ALI to evaluate how an open skies policy would change the competitive dynamics of air transport in Africa Adopting a two tier gravity model the book explores how demand and route networks would be impacted by the deregulation of the air transport market The book also applies a historical perspective by evaluating the initial ratification of the Yamoussoukro Declaration 1999 which acted as a catalyst for Africa s 2063 regional agenda focused on establishing the Single African Air Transport Market SAATM The book also provides a comprehensive analysis of the African Continental Free Trade Area AfCFTA exploring its multifaceted impacts on Africa s single market from economic regulatory and sustainability perspectives This includes an introduction to the AfCFTA highlighting its inception as a major step towards continental economic integration aimed at enhancing intra African trade promoting sustainable development and fostering industrial diversification It then examines the capacity and competency building of African aviation personnel Training gaps and skills are extensively evaluated to ensure that the African region is prepared for the new competitive equilibrium post SAATM The book also raises critical questions regarding the status of the African air transport market Firstly with the introduction of an open skies policy in Africa will the national flag carriers be able to

compete under the new market dynamics Will the SAATM become a game changer in paving the way for the privatisation of some of Africa s poor performing airlines Will the SAATM create a competitive market and a shift in airfares How will policymakers deal with the excessive aviation taxes fees and charges that make airfares in Africa the highest in the world What will the economic benefits be for signatory states that embrace the SAATM Will there be a significant growth trajectory in terms of air travel demand This book is intended for researchers studying air transport economics in developing markets graduate students with a primary focus on air transport development senior policymakers and professionals at governmental agencies and industry practitioners who want to expand their understanding of the dynamics shaping Africa s air transport landscape [Airport Design and Operation](#) Antonin Kazda,Robert E. Caves,2015-08-05 In this third edition the chapters

have been enhanced to reflect changes in technology and the way the air transport industry runs Key topics that are newly addressed include low cost airline operations security issues and EASA regulations on airports A new chapter covering extended details about wildlife control has been added to the volume **Elgar Concise Encyclopedia of Aviation Law** Anna Masutti,Pablo Mendes de Leon,2023-12-11 The Elgar Concise Encyclopedia of Aviation Law provides a comprehensive overview of the evolution of the dynamic field of aviation law Curated by two internationally recognized scholars in the field entries are written by a wealth of specialist academics legal experts practitioners and representatives of global institutions

[Strategies for Sustainable Air Services Development](#) Chrystal Zhang,Kareem Yarde,2024-12-02 Routes are arguably the most valuable of airline assets Although widely practised in the industry the process of developing air connectivity has drawn very limited academic research However this book fills in this knowledge gap Strategies for Sustainable Air Services Development unwraps the process of decision making in establishing airlinks from the airline s perspective as well as the roles of various stakeholders including airports tourism authorities tourist destination organizations local investment agencies and regional development agencies Developed from rigorous academic research and analysis of a myriad of data sources that include interviews surveys and workshops with industry practitioners it presents a framework of best practices that will serve as a toolkit and central resource point for industry professionals to initiate and establish airlinks to benefit air travellers and society at large The first book of its kind it presents the most comprehensive assessment available to date of all the intricacies involved in developing airlinks The book will equip senior and middle managers practitioners policymakers and students with the practical skills and tools required to develop and design airlinks for the benefit of all stakeholders
