International Education and Schools Richard Pearce, 2013-10-24. Over the last forty years, the estimated number of international schools worldwide has increased from fewer than 300 to 6400 in 2012. This explosion is a response to the needs of a world in which borders are being traversed with ever greater ease, and children increasingly need to be prepared for the global opportunities that await them. In this book, international school specialists reflect on where the movement has come from, how it stands, and where developments are heading, offering insightful observations on these unique institutions. This is a comprehensive resource for students, researchers, and professionals with an interest in the future of education in a globalized world.

Learning and Understanding National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee on Programs for Advanced Study of Mathematics and Science in American High Schools, 2002-08-06. This book takes a fresh look at programs for advanced studies for high school

students in the United States with a particular focus on the Advanced Placement and the International Baccalaureate programs and asks how advanced studies can be significantly improved in general It also examines two of the core issues surrounding these programs they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs this report provides teachers parents curriculum developers administrators college science and mathematics faculty and the educational research community with a detailed assessment that can be used to guide change within advanced study programs
