Inquiry Based Literacy Lesson Plans:

Concept-Based Literacy Lessons Lois A. Lanning, Tiffanee Brown, 2019-01-10 For literacy teachers looking for practical ways to implement a Curriculum and Instruction Model that's more inquiry driven and idea centered look no further than this book. This resource helps bridge the divide between conceptual curriculum and actionable practice and provides practical support for teachers implementing Concept Based literacy lessons. Readers will find Step by step help with lesson planning for conceptual understanding and transfer. Ideas for supporting inductive learning. Classroom Snapshots that showcase familiar literacy practices in Concept Based classrooms. Strategies to promote critical reflective and conceptual thinking. Model elementary and secondary Concept Based lesson and unit plans. A chapter devoted to answering frequently asked questions.

The Teacher's Guide to Media Literacy Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area. It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today: what is it? why is it important? how can you teach it across a wide range of curriculum areas and grade levels and does it work? Rather than focusing on how to teach media literacy, Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas.

Expanding Opportunities to Link Research and Clinical Practice JoAnne Ferrara, Janice L. Nath, Irma N. Guadarrama, Ronald Beebe, 2017-03-01 This volume in the Research in Professional Development Schools book series considers the role professional development schools (PDSs) play in expanding opportunities for linking research and clinical practice. As in past volumes of this series, PDS practitioners and researchers make a compelling case for the power of micro level initiatives to change practice. Contributors share ideas to expand PDS work beyond site specific contexts to include a broader macro level agenda for clinical practice. Authors hope to inspire large scale PDS reform through replication of successful initiatives featured in this volume. Evoking change is not easy. Nonetheless, series editors and contributors conclude that PDSs generate a critical mass of PK-16 educators willing to form partnerships to address enduring educational dilemmas. This volume represents a cross section of PDS stakeholders engaged in research along with innovative projects that uncover the richness of clinical practice. Higher education faculty, school practitioners and preservice teachers featured in these chapters explore the ways PDSs deepen clinical practice while enriching teaching and learning. We begin with the discussion by Beebe, Stunkard and Nath on the National Association for Professional Development Schools' (NAPDS) role to support teacher candidates' clinical practice through the cooperative efforts of university and school based personnel. The authors explain NAPDS history and advocacy over the years to promote a context for school-university partnerships to thrive and expand. As the premier association guiding the work of collaborative P-12 higher education partnerships, we welcome the insightful perspectives provided.
