Master Curriculum Guide in Economics. Teacher Resource Manual [and] Student Activities Cynthia Lieb, Cynthia Samuel, Robert Lee Stout, 1994 This teacher resource manual for 3rd and 4th grade students uses a wide variety of instructional activities for teaching economics education. The activities include role playing in small groups, producing bookmarks and making decisions. Students are given the opportunity to interview adults, perform services for their families, do independent research, conduct experiments and perform in skits. As a class, they participate in a trading activity, engage in a classroom competition and take part in a simulation. Discussion, reading and writing clarify and reinforce the concepts that the activities are designed to teach. The manual contains 15 step-by-step lesson plans and reductions of the student pages for quick reference. Performance outcomes, a planning chart and a 57-term glossary also are included. The companion student activities manual contains 39 supporting activities. The pages include family letters, scripts, activity cards, patterns and a variety of other classroom materials in blackline master form.
