Peep sight. On special order and at an extra cost our rifles and carbines can be fitted with a peep sight with adjustable disc. It is mounted on the back of the butt, bends down and nests itself automatically as the bolt is opened and closed. When down it can be locked in its case.

Telescope sights. All our sporting magazine rifles and carbines can be supplied and fitted with telescope sights, the details of the mounting of which are shown in the following illustration.

The rear mount, fitted with adjusting device, rests on a platform solid with the receiver bridge, thereby avoiding the necessity of soldering-on or screwing-on. The base plate of the front mount is usually dovetailed into the back of the receiver. Both mounts are tunneled and permit the simultaneous use of the ordinary sights.

The putting-on and taking-off of the telescope sight is done readily without any tool whatsoever.
