This smartphone based approach enables an anywhere anytime platform for students to conduct signals and systems experiments. This book covers the laboratory experiments that are normally covered in signals and systems courses and discusses how to run MATLAB codes for these experiments on both Android and iOS smartphones thus enabling a truly mobile laboratory environment for students to learn the implementation aspects of signals and systems concepts. The Cardinal's Hat Mary Hollingsworth, 2006-05-02

A riveting portrait of the day to day life of a wealthy worldly Renaissance prince as he pursues power and influence in the Catholic church. USA Today The second son of Alfonso d Este and Lucretia Borgia the Duke and Duchess of Ferrara Ippolito d Este was made the archbishop of Milan at the age of nine. But from the time of his father's death in 1534 he set his ambitions on acquiring the powerful and coveted cardinal's hat. But one did not become a sixteenth century prince of the church through piety and good works. Ippolito had a taste for gambling and women. He enjoyed hunting in the Loir valley and pursued his ambition with money schmoozing and the dark arts of politics. Working with Ippolito's letters and ledgers recently uncovered in an archive in Modena Italy Mary Hollingsworth has pieced together a fascinating and undeniably titillating tale of this Renaissance cardinal and his road to power and wealth in sixteenth century Europe. The ledgers document every aspect of Ippolito's comings goings purchases and debts. Out of these finely detailed records Hollingsworth brings to life not only Ippolito but his world. In this brilliant piece of historical detective work and narrative reconstruction the most unlikely bits and pieces a scrap of velvet a stray barrel of wine can be made to tell stories that resonate far beyond the neat columns of a well kept account book.
