## IP 650 Expansion Module

Optimal solution for telephone attendants-receptionists

The SoundPoint IP Backlit Expansion Module for the SoundPoint IP 650 desktop phone is an optimal solution for telephone attendants-receptionists, administrative assistants, secretaries, and other "power users" who manage and monitor multiple simultaneous telephone calls on a daily basis.

The SoundPoint IP Backlit Expansion Module augments the user interface of the SoundPoint IP 650 phone with a high resolution graphical LCD with backlight and 14 multifunctional line keys that can be set up as a line registration, call appearance, or a speed-dial, direct station select (DSS)/busy lamp field (BLF) 1 key. The backlit display eliminates the need for external light sources and matches elegantly with the look and feel of SoundPoint IP 650 phone.

video to voice feeds      *Routledge Handbook of Resilient Thermal Comfort* Fergus Nicol, Hom Bahadur Rijal, Susan Roaf, 2022-04-19 This book brings together some of the finest academics in the field to address important questions around the way in which people experience their physical environments including temperature light air quality acoustics and so forth. It is of importance not only to the comfort people feel indoors but also the success of any building as an environment for its stated purpose. The way in which comfort is produced and perceived has a profound effect on the energy use of a building and its resilience to the increasing dangers posed by extreme weather events and power outages caused by climate change. Research on thermal comfort is particularly important not only for the health and well being of occupants but because energy used for temperature control is responsible for a large part of the total energy budget of the built environment. In recent years there has been an increasing focus on the vulnerabilities of the thermal comfort system: how and why are buildings failing to provide safe and agreeable thermal environments at an affordable price? Achieving comfort in buildings is a complex subject that involves physics behaviour physiology energy conservation climate change and of course architecture and urban design. Bringing together the related disciplines in one volume lays strong multi disciplinary foundations for new research and design directions for resilient 21st century architecture. This book heralds workable solutions and emerging directions for key fields in building the resilience of households organisations and populations in a heating world.
