

Short Valedictorian Speech Example

Principal Stevens, Trustees, Faculty members, family, friends and fellow graduates, today is a day to be thankful and to be inspired.

First, we have much to be thankful for. Here at Peterson School we have received a great education thanks to our fine administration and teachers. We are prepared to move on and to take on whatever challenges come next in our lives.

Fellow graduates, I want you to know what a great gift it is to be as prepared as we are, because not all schools offer such an advantage. Here we have had a high degree of academic excellence and whether you intend to continue your education or not, you will benefit from what you learned here.

We can also be thankful for our families. These past four years have presented us with a lot of ups and downs and it is good to know that we had our families in our corner, supporting us along the way. Thanks Mom and Dad. I would not be here today without you.

Finally, we can be thankful for each other. The friendships that we have made here will last a lifetime. In the same way we have supported each other and helped each other succeed in these years at Peterson, I hope we will continue to provide support and encouragement for each other in future endeavours.

Now, what can we be inspired by today? Personally, I am inspired by our classmate Alan Rockford who has overcome so much adversity to be here graduating today. Alan, you have been tenacious and have had such a great attitude in the face of so many setbacks. Whenever I get a little down about something that didn't turn out just the way I wanted it to, I remember some of the talks we have had and it gives me the perspective I need. Thank you for that, congratulations, and all the best!

I'm also inspired by Bill Thomas and Tony Marcos who are leaving later this week for Marine boot camp. Billy and Tony, I honour you for making the choice to serve our country and I feel proud to know you. Please take care of yourselves and keep in touch.

Often on graduation day we look outside for heroes but I see them right here among us. I have seen in my years at Peterson that we don't have to look far for inspiration and that we each have the potential to make an inspiring contribution to others, by being true to our values and committing ourselves to lofty goals.

When you leave here today, celebrate what you have accomplished, but look forward with an eye toward

The Blueprint for 2 Americas Linda Nelson,2021-09-20 What VEHICLE did we climb aboard that carried us so far from our cultural roots How did the vast changes to society our social framework and our relationships come about Most importantly we must ask ourselves How could we become so divided Or are we The answers we hear in the public discourse are wholly inadequate to address the scope of the changes Could anyone in 1990 expected that ABC NBC or CBN would identify 53 Genders or that public policy law and educational principles would be altered to grant special rights to these created genders Could we have envisioned cities and businesses being destroyed by people claiming to be supportive of the people affected

Many feel the world has been turned upside down the law is silent with regard to some egregious acts while being openly hostile to seemingly innocent citizens expressing their right of free speech We have heard over and over these six powerful words How did our nation get here This book is designed to explain EXACTLY how we got here You will become thoroughly aware of the plan that was set in motion who designed it when it began and the mechanisms used to move us to their desired end and finally where it will take us You will discover that the separation of Americans by race or wealth or gender is a myth and meet the groups responsible for those myths After reading The Blueprint for Two Americas every news report school board issue or city council agenda will be viewed with the perspective of the Humanist Manifestos in mind You will be awakened to the destruction that this plan has wrought Just as a building has a set of blueprints that direct each specialty worker to their part in bringing about the finished product this social re engineering has a set of blueprints and the new society it envisions is nearly complete This book reveals THE BLUEPRINT FOR THE TWO AMERICAS
