Fagan, 2015-01-21 Make formative assessment work for you and your math students Finally formative assessment that adds up This research based teacher tested guide written specifically for middle school mathematics teachers will help you teach more effectively and turn your students into self regulated learners As you implement instructional strategies your students will start monitoring assessing and communicating about their own progress Features include A clear and manageable six aspect instructional model Detailed strategies for helping students own their successes Real life examples from middle school mathematics teachers Useful resources and a companion website to help you implement formative assessment in your classroom **The Opportunity Equation** Eric Schwarz, 2015-08-25 Schwarz founder of the groundbreaking Citizen Schools program shares his vision for reducing inequality by pairing successful adults with low income students Parental wealth now predicts adult success more than at any point in the last hundred years And yet as debates about education rage on and wealth based achievement gaps grow too many people fix the blame on one of two convenient scapegoats poverty or our public schools But in fact low income kids are learning more now than ever before The real culprit for rising inequality Eric Schwarz argues in *The Opportunity Equation* is that wealthier kids are learning much much more mostly outside of school In

summer camps robotics competitions sessions with private tutors and conversations around the dinner table children from more affluent families build the skills and social networks that propel them to success In *The Opportunity Equation* Schwarz tells the story of how he founded the pioneering Citizen Schools program to combat rising inequality by bringing these same opportunities to children who don't have access to them By increasing learning time in schools and harnessing the power of an army of volunteers with various skills and professional backgrounds lawyers engineers carpenters journalists nonprofit leaders and grandmothers who sew Citizen Schools offers after school apprenticeships that provide the building blocks for adult success Recounting the triumphs and setbacks he's encountered in implementing the program Schwarz shows that some of the nation's lowest performing schools in its lowest income cities can with help provide their students with many of the same experiences wealthy communities afford to their children The results have been proven in the dozen school districts from New York to Oakland that have partnered with Citizen Schools rates of attendance proficiency graduation and college acceptance have gone up and the achievement gap closes At a time when many stakeholders in the education debates are looking for new silver bullet shortcuts to educational excellence Schwarz shows that the best solution is human centered rooted in the American tradition of citizen voluntarism and most important achievable We can provide quality education for all students and close the opportunity gap in this country and we can do it together
