W03 Focus: Reading Reflections Questions

Instructions:

Use Chapter 3, "Prenatal Development, Birth and the Newborn Baby" on pp. 74–113, to thoroughly complete this study guide, which will help you study for the exam. If you understand these answers (and can explain them to someone else), you will be more prepared to do well on the unit exam.

Question:	Answer:
1. List the three periods of prenatal development, and discuss three major milestones of each stage.	1. First Trimester: germinal, embryonic, and fetus a. The single-celled zygote grows and develops into a blastocyst and it penetrates the uterine wall. The amnion, chorion, yolk sac, placenta, and umbilical cord start to take shape. b. There is a spinal cord and a primitive brain. The digestive system, heart, ribs, muscles, the backbone, the face, arms, legs, toes, and fingers start to form. The embryo can move, and the sense of touch is beginning to emerge. c. There is a fast size rise. The nervous system, muscles, and organs become more connected and structured, the majority of the body becomes touch sensitive, and new behavioral abilities emerge. And the external genitals are fully developed, so the sex of the fetus is clear. 2. Second Trimester: a. The fetus keeps growing quickly. During this time, the mother can feel the fetal movements. b. The fetus's skin is protected from chapping in the amniotic fluid by vernix and lanugo. c. By 24 weeks, the majority of the brain's neurons are established. The fetus responds to sound, and its eyes are sensitive to light. 3. Third Trimester: a. If born at this period, the fetus has a decent chance of surviving. Size expands and the lungs develop. Expanding sensory and behavioral capabilities are made possible by the brain's rapid development in terms of neuronal connection and organization. b. A layer of fat is deposited beneath the skin in the middle of this phase. To protect the unborn child from illness, mothers pass antibodies to the fetus. c. In preparation for birth, most fetuses rotate into an upside-down position.
