Dunning, 2014-11-13 John Dunning's general theory of international production first propounded in the late 1970s has generated considerable debate. The Globalization of Business (Routledge Revivals) John H. Dunning, 2014-11-13 In recent years economic activity has become increasingly globalized. One of the main instruments behind this process is the multinational enterprise. In *The Globalization of Business* first published in 1993 John Dunning explores the latest issues in the world of international business and looks ahead at the remaining years of this century identifying the likely challenges of the future. What are the challenges posed by the technological, political and economic developments of the 1990s for international business? What are the implications of the opening up of new territories such as in Central and Eastern Europe and parts of China? To what extent are the competitive advantages of nation states increasingly coming to depend on the presence of multinational activity? What are the implications of the globalization of markets and production for the domestic economic policies of governments? This collection of essays will be vital reading to students of international business.

Coalitions and Competition (Routledge Revivals) Yair Aharoni, 2014-06-17 This title first published in 1993 was one of the first books to analyse the forces behind the increasing globalization of professional business services. Based on contributions from leading authorities in international business both academics and members of organizations such as GATT and UNCTAD it looks at the opportunities for growth, environmental and regulatory problems and the major problems of managing the international expansion of professional firms. Crucially it discusses such issues from the point of view of managers of such organizations and the role of governments in negotiating multinational agreements. This highly international and timely reissue will be of interest to students of international business as well as managers of professional business firms and policy makers involved in international trade issues.
