Automotive Climate Control 116 Years of Progress Gene D. Dickirson, 2011-04-26 The evolution of automotive climate control systems is told in more than 500 pages including more than 600 pictures The progress made in heaters defrosters air conditioners ventilation systems and windshield wipers since 1897 is enormous This book shows how the automobile manufacturers and suppliers have made driving an automobile safe and pleasant in any type of weather The major changes that have occurred from the early use of lap robes and charcoal heaters to the modern sophisticated electronically controlled systems are fully documented in this book P 4 of cover **Buying Guide 2008** Consumer Reports, 2007-11-13 A Handbook of Transport Economics André de Palma, Robin Lindsey, Emile Quinet, Roger Vickerman, 2011-01-01 This Handbook is a stellar compilation of up to date knowledge about the important topics in transport economics Authors include the very best in the field and they cover the most important topics for today s research and policy applications Individual chapters contain sound readable well referenced explanations of each topic s history and current status I cannot think of a better place to start for anyone wanting to become current in the field or in any of its parts Kenneth Small University of California Irvine US Bringing together insights and perspectives from close to 70 of the world s leading experts in the field this timely Handbook provides an up to date guide to the most recent and state of the art advances in transport economics The comprehensive coverage includes topics such as the relationship between transport and the spatial economy recent advances in travel demand analysis the external costs of transport investment appraisal pricing equity issues competition and regulation the role of public private partnerships and the development of policy in local bus services rail air and maritime transport This Handbook is designed both for use on postgraduate and advanced undergraduate courses and as a reference for anyone working in the field It also complements the textbook Principles of Transport Economics The Shadows of Consumption Peter Dauvergne, 2010-09-24 An environmentalist maps the hidden costs of overconsumption in a globalized world by tracing the environmental consequences of five commodities The Shadows of Consumption gives a hard hitting diagnosis many of the earth s ecosystems and billions of its people are at risk from the consequences of rising consumption Products ranging from cars to hamburgers offer conveniences and pleasures but as Peter Dauvergne makes clear global political and economic processes displace the real costs of consumer goods into distant ecosystems communities and timelines tipping into crisis people and places without the power to resist In The Shadows of Consumption Peter Dauvergne maps the costs of consumption that remain hidden in the shadows cast by globalized corporations trade and finance Dauvergne traces the environmental consequences of five commodities automobiles gasoline refrigerators beef and harp seals In these fascinating histories we learn for example that American officials ignored warnings about the dangers of lead in gasoline in the 1920s why China is now a leading producer of CFC free refrigerators and how activists were able to stop Canada s commercial seal hunt in the 1980s but are unable to do so now Dauvergne s innovative

analysis allows us to see why so many efforts to manage the global environment are failing even as environmentalism is slowly strengthening He proposes a guiding principle of balanced consumption for both consumers and corporations We know that we can make things better by driving a high mileage car eating locally grown food and buying energy efficient appliances but these improvements are incremental local and insufficient More crucial than our individual efforts to reuse and recycle will be reforms in the global political economy to reduce the inequalities of consumption and correct the imbalance between growing economies and environmental sustainability
