Per the *Publication Manual of the American Psychological Association* (APA) (6th edition), double-space the entire paper, except with charts or tables. Do not add any extra spacing, except with page breaks between chapters (for very long papers), between the cover and first page, and between the last page and the reference section. Note: Center the following information in the middle of the page: title, your name, school name, course title and section, the instructor's name, and the date. **APA only requires the title, author's name, and institutional affiliation**, but most CSP instructors ask for the date and course information too—check with the instructor or syllabus. Do not use contractions in formal papers—either in the title or the body of the paper ("do not" rather than "don't"). Titles should include no more than 12 words. Titles use upper and lowercase letters.
