

Safe Manual Handling

INTRODUCTION

LEGISLATION

More than a 100 European countries in the world have signed European and national laws on manual handling and lifting. These regulations are mostly in the workplace and for employers. The laws in most countries require employers to assess and control risks to avoid or reduce the number of accidents and injuries from these operations.

TYPES OF INJURY

The back is a series of bones with a thin supporting cartilage between them and ligaments which support the spine. There is a protection mechanism to warn you when subjected to too much pressure.

The types of injury that occur are:

1. Strains, back muscle and tissue that occur over time due to repeated movements.
2. Sprains, cuts and bruising. Fractures and dislocations that happen.

Anywhere in the musculo-skeletal system can be injured.

RISK ASSESSMENT

The purpose of a risk assessment is to:

1. Identify hazardous practices by looking at the **Task**, **Individual**, **Load** and the **Environment**. Then to decide what steps to be taken to reduce the risk of the existing conditions and to decide if further action is necessary.

The person carrying out the assessment should be:

1. Able to use the 'Four Components of Health and Safety' in their **Organizational Skills**, **Task**, **Manual Handling Department**, **Department**, **Individual** and any circumstances or systems.
2. Able to use the processes being carried out.
3. Competent to carry out the task.

The assessment should be written down and the recommendations used to plan future training procedures.

TASK

The whole task should be looked at from the beginning to the end. Some of these aspects need to be considered:

- Is it a one-off task?
- How long will it take to do the task?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?

INDIVIDUAL

- How long it will take to do the task?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?

LOAD

- Is it a one-off task?
- How long will it take to do the task?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?

ENVIRONMENT

- Is it a one-off task?
- How long will it take to do the task?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
- How often will it be done?
