Exemplars, Imitation, and Character Formation Eric Yang, 2024-08-22 This volume examines the role and relevance of exemplars and the practice of imitation in character development and formation While the role of exemplars and imitation in spiritual and moral formation has been an integral part of many religious and wisdom traditions in recent times there has been limited theological and philosophical investigation into it and a dearth of interdisciplinary discussion The book brings together relevant research and insights from leading experts within philosophy psychology and theology with a slight emphasis on Christian approaches to exemplars and imitation especially given the reflection on these themes throughout the history of the Christian intellectual and mystical tradition Many of the contributions display an interdisciplinary approach into these issues hence this volume will be of interest to philosophers psychologists theologians and others who work in moral psychology and character formation

Developing Community Schools, Community Learning Centers, Extended-service Schools and Multi-service Schools Hal A. Lawson, Dolf van Veen, 2015-12-14 This book

focuses on special organizational configurations for schools in diverse parts of the world. Some of these new organizational and institutional designs are called multi service schools, others are called extended service schools, and still others are called community learning centers. While these schools have different names and notable different characteristics, they belong in the same category because of a common feature in their design: they connect schools with once separate community programs and services. Chief among the prototypes for these new organizational and institutional designs are the ones featured in the book's title. Some are called multi service schools to indicate that they selectively provide some new programs and services. Others are called extended service schools to indicate that they serve young people beyond the regular school day, seeking influence and control over out of school time while enabling alternative teaching learning strategies and providing services other than typical pupil support services. Still others are called community learning centers, a name that showcases the educational functions and priorities of schools and announcing priorities for adult learning and development. Community schools, still called in some places full service community schools, serves as a prototype that increasingly positions schools as multi purpose multi component anchor institutions serving identifiable neighborhoods and entire rural communities. The book is structured to enhance understanding of these organizational prototypes and provides comparative social analysis. It also identifies knowledge needs and gaps as well as developmental territory for the future.

The committee has received 195 abstracts from prospective speakers. However, there are only 80 abstracts that are eligible to be presented at this conference.
