| b. Developments in transport & trade in the 19 <sup>th</sup> century (railways, telegraph, steamships) accelerated in the 20 <sup>th</sup> century (jet aircraft, containerization), contributing to a 'shrinking world'                                                                                                  |
| c. The 21 <sup>st</sup> century has been dominated by rapid development in ICT & global communication (mobile phones, internet, social networking, electronic banking, fibre optics), lowering communication costs & contributing to time-space compression                                                               |
