Implementing Environmental Management Accounting: Status and Challenges Pall M. Rikhardsson, Martin Bennett, Jan Jaap Bouma, Stefan Schaltegger, 2005-11-13 This is the third volume in the Environmental Management Accounting Network (EMAN) series of selected refereed papers on environmental management accounting drawn primarily from papers presented at EMAN Europe's annual conferences. Most of the papers in this volume were first presented at the 6th EMAN Europe Annual

Conference at the Aarhus School of Business Denmark on 23-24 January 2003. The focus of the conference and the papers presented was on implementation of Environmental Management Accounting. That is to say what challenges there are in getting EMA to work in companies, how governments are promoting EMA and how EMA can be supported by, for instance, IT. From the papers in this volume it can be seen that EMA is becoming more established as a field of practice as well as an academic endeavour. EMA is no longer the sole interest of large multinational companies but is being adopted by SMEs as well as being promoted by various government agencies. EMAN has continued to play an important role in this development by providing a medium through which those interested can contact others with similar interests and by organising regular events for the dissemination and exchange of news and ideas. EMAN aims to provide a forum in which academics and practitioners can meet to exchange and share ideas and experiences and this has guided the selection of these papers which include both academic papers grounded in the relevant literature and with reference to theory as appropriate.
