How to Tell a Joke Marcus Tullius Cicero, 2021-03-30 Everyone knows that Marcus Tullius Cicero was one of the great statesmen lawyers and effective orators in the history of Rome But did you also know he was regarded as one of the funniest people in Roman society as well Five hundred years after his death in the twilight of antiquity the writer Macrobius ranks him alongside the comic playwright Plautus as the one of the two greatest wits ever In this book classicist Michael Fontaine proposes to translate selections from Cicero's great rhetorical treatise On the Ideal Orator De Oratore That larger work covered the whole of rhetoric and effective public speaking and debate However contained within it is a long section focused on the effective use of humor in public speaking In it Cicero is concerned not just with various kinds of individual jokes but with jokes that are advantageous in social situations He advises readers on how to make the most effective use of wit to win friends audiences and achieve their overall ambitions Cicero wants to teach his readers how to tell

a joke without looking like a buffoon and how to prevent or avoid jokes from backfiring Hence he does give scores of examples of jokes some of which are timeless and translate easily others that involve puns in Latin that challenged the translator's creativity But overall this work brings to the fore a little known but important part of Cicero's classic work

only deliberately ambiguous sentence in the book Deliberate ambiguity will be shown to underlie much if not all of verbal humor Some of its forms are simple enough to be perceived as deliberately ambiguous on the surface in others the ambiguity results from a deep semantic analysis Deep semantic analysis is the core of this approach to humor The book is the first ever application of modern linguistic theory to the study of humor and it puts forward a formal semantic theory of verbal humor The goal of the theory is to formulate the necessary and sufficient conditions in purely semantic terms for a text to be funny In other words if a formal semantic analysis of a text yields a certain set of semantic properties which the text possesses then the text is recognized as a joke As any modern linguistic theory this semantic theory of humor attempts to match a natural intuitive ability which the native speaker has in this particular case the ability to perceive a text as funny i e to distinguish a joke from a non joke
