This book answers these questions in the affirmative while considering the social, legal, and technological features of unauthorized dissemination of intimate images or revenge porn. In doing so, it asks fundamental socio-legal questions about responsibility, causation, and apportionment, as well as conceptualizing private information as property. It states, analyses, illuminates, and evaluates the law of civil jurisdiction and the enforcement of foreign judgments in English law, with this new edition taking into account the implications of the new Brussels I Regulation (recast) Regulation (EU) 1215/2012, as well as the great number of developments in the case law which have taken place since 2009. This book looks in detail at the jurisdictional rules put in place by the recast Brussels I Regulation, the common law rules of jurisdiction, the principles according to which that jurisdiction will or will not be exercised, the extent to which proceedings before a foreign court may be assisted or impeded, obtaining interim and interlocutory relief, recognition and enforcement of foreign judgments. This text is an authoritative and comprehensive reference for all legal professionals working in commercial law across jurisdictions.

**The Conflict of Laws** Adrian Briggs, 2019-10-24 This invaluable introduction to the study of the conflict of laws provides

a survey and analysis of the rules of private international law as they apply in England Written to take account of the various possible outcomes of the Brexit process it goes as far as is possible to make sense of the effect it will have on English private international law The volume covers general principles jurisdiction and the effect of foreign judgments the law applicable to contractual and non contractual obligations the private international law of property of adults the increasingly complex law of children is described in bare outline and of corporations It does so in a manner which explains and illuminates the principles which underpin the subject in a clear and coherent fashion as the wealth of literature case law and legislation can often obscure the architecture of the subject and unnecessarily complicate its study This new edition organizes the existing material in light of European legislation on private international law reflecting the way in which an accurate representation of the topic requires it to be interpreted as European law with a common law periphery instead of common law with European legislative influences As at the time of writing and possibly for some time to come the consequences of Brexit are a mystery but the attempt is made to describe the various possible shapes which the subject will assume in the future The book adopts a pragmatic approach and avoids the more abstract theory as the theory of the conflict of laws is actually to be found in and by applying the legislation and jurisprudence to the cases and issues which arise in private international litigation and in giving legal advice

*Private International Law and Arbitral Jurisdiction* Faïdon Varesis, 2022-12-23 International commercial arbitration and litigation are often seen as competing fora fields of law or markets This intersection is at its highest at the forefront of any proceedings at the jurisdictional stage The analysis of jurisdictional issues at the forefront of an arbitration has been confined in a descriptive analysis of the law and jurisprudence dealing with jurisdictional intersections almost in a mechanistic manner These are not however issues which can be treated as mere mechanical rules They are issues pertaining to core notions of authority sovereignty their origins and their allocation At the same time the pragmatic and practical domination of party autonomy is a fact which cannot be disregarded when one considers the normative and theoretical foundations of any model of dealing with these issues This book moves beyond an analysis of arbitration and jurisdiction clauses to reconcile theory and practice and provides an underlying theoretical model to explain and regulate jurisdictional intersections at the early stages of an arbitration from a private international law perspective It combines both an in depth engagement with the theoretical literature as well as a close examination and analysis of its practical consequences in the form of a restatement of the law of England and Wales From a methodological perspective it utilises contemporary theories in private international law to propose a coherent model of regulating arbitral jurisdictions which promotes autonomy and freedom of the parties at this stage Demonstrating first how the theoretical model can be applied in practice and second to provide a basis for a potential future top down or bottom up approach of adopting the proposed model it includes a succinct and practical codification of the current state of affairs in relation to the whole spectrum of jurisdictional issues in England and Wales to serve as a useful tool for practitioners considering jurisdictional

issues both from the perspective of State courts and from the perspective of arbitral tribunals as well as academics researching in these areas      *ELLiC 2019* Dodi Mulyadi ,Heri Dwi Santoso,Siti Aimah,Robbi Rahim, We are delighted to introduce the proceedings of the 3rd English Language Literature International Conference ELLiC 3 This conference has brought researchers developers and practitioners around the world who are leveraging and developing the English language education literature linguistics and translation We strongly believe that this conference provides a good forum for all researchers developers and practitioners to discuss all scientific aspects that are relevant to Digital Society especially in the above fields We also expect that the future conference will be as successful and stimulating as indicated by the contributions presented in this volume      **Computational Data and Social Networks** Thang N.
